How We Work With You

You Refer the Patient

Send patients who would benefit from multidisciplinary pain and behavioral support.

We Build a Coordinated Plan

Our team evaluates your patient and develops a comprehensive plan aligned with their needs.

We Keep You in the Loop

We maintain communication so your specialty treatment remains central to the patient's care.

A Fully Integrated Ecosystem

Supporting Better Outcomes Beyond the Clinic

Lifekind SURGERY CENTER

A CMS-certified outpatient surgical center delivering cost-effective procedures like spinal cord stimulation, Intracept, and other state-of-the-art surgeries.

Lifekind FOUNDATION

A 501(c)(3) nonprofit addressing social determinants of health through community-based support—helping patients overcome barriers and stay engaged in care.

Get to Know Unitized Transdisciplinary Care (UTC)

Whole-Person Care That Helps Your Chronic Pain Patients Succeed

lifekindhealth.com

About Lifekind Health

Lifekind Health delivers whole-person pain care through our Unitized Transdisciplinary Care (UTC) model—an integrated approach addressing the physical, behavioral, and functional drivers of chronic pain.

UTC is designed to complement your care—not replace it.

How UTC Works

Meet the Team

A dedicated multidisciplinary team is built around your patient

Monthly Sessions

Structured, 2-hour clinic visits focused on progress towards individual goals

Whole-Person Approach

Medical, behavioral, and functional care fully integrated and coordinated

Who to Refer

Refer Patients Who Need More Than Traditional Care:

- Persistent pain despite treatment
- Limited mobility or delayed recovery
- Behavioral health or trauma-related complexity
- Opioid dependence or medication challenges
- Functional decline impacting daily life

We help stabilize complex patients so they can succeed in your care plan.

How to Refer

Refer Your Patients in 3 Simple Steps

01 Send referral via secure email (or referral pad)

02 We contact the patient within 1–2 business days

03 Patient begins UTC care

Fast access. Coordinated onboarding. No disruption to your care.

Outcomes that Matter

Published research on other transdisciplinary chronic pain programs has shown:

Pain, Function & Cognition[1]

77%
Reported being "much improved" or "very much improved"

29% ↓ Pain Severity

40% ↓ BPI Pain Interference

46% ↓ Pain Catastrophizing

Behavioral Health

50% ↓ Depression Symptoms[1]

40% ↓ Anxiety Symptoms[1]

Opioid Stewardship

Supported patients in reducing daily opioid dosing where clinically appropriate.[2]

Utilization Shift

Increased ↑ Primary Care Engagement[3]

Reduced ↓ Healthcare Utilization[4]

Reduced ↓ Hospital Admissions[4]

Reduced ↓ Urgent Care Utilization[4]
