

COOKIE POLICY

USE OF COOKIES

WHAT ARE THE COOKIES?

A cookie is an information packet that the server sends to the browser, and the browser sends it back to the server for each request directed to the server. Cookies are created by the web server itself via the browser on the user's computer, where they will be stored in a separate directory. In this way, cookies allow the website to recognise you if you have visited the website before.

TYPES OF COOKIES

We may use two types of cookies on our website: 'session cookies' or 'persistent cookies'.

Session cookies: these are temporary cookies that are stored in your cookie file until the end of your browsing session. These cookies are essential for the proper functioning of certain functionalities or applications on the website.

Persistent Cookies: these are cookies that remain on your device after you have left the website and are stored in form of a randomly generated number to help identify website visitors as unique users. The type of cookie determines how long it is stored on the device. The website is tracked using the Google Analytics system, for more information click here: <http://google.com/analytics>

HOW TO DISABLE AND/OR REMOVE COOKIES

You can set your browser to accept all cookies, reject all cookies, or notify you when a cookie is sent to your computer. Setting options are usually found in the "Options" or "Preferences" menu of the browser. Please use the "Help" menu of your browser to find the appropriate settings.

Please note that some functions may not work properly if cookies are disabled.
