

# IP66 Heavy Duty Enclosures Technical Specification

This series has been designed for resistance to tougher environments where a hardwearing box, combined with ingress protection may be required.

Sealed to IP66, they are dust proof, splash proof and protected from powerful jets of water. Eight sizes are available comprising PCB guides, DIN rail mounting points, lid, seal, captive screws and earth screws.

The range can be finished in plain aluminium, or painted and coated for added resistance to abrasion, oils, corrosion and diluted acids.
