

Improve realization with client-ready timekeeping

Intapp Time helps law firms improve their timekeeping practices to increase revenue recognition, honor client commitments, and free lawyers from mundane time-recording tasks. It automatically captures billable and nonbillable work effort while ensuring compliance with billing terms at the point of time entry.

- Always-on, contemporaneous timekeeping frees you from the chore of time reconstruction
- Shared time entries improve timekeeping efficiency and ensure a consistent narrative
- Accurate and compliant invoices keep client relationships strong
- AI-powered automated time capture reduces revenue leakage
- Robust integrations connect timekeeping data with multiple FMS solutions
- Integration with Intapp Terms and Intapp Billstream creates a seamless, compliant workflow from time captured to prebill preparation
- Accurate, compliant invoices improve client satisfaction and maximize profitability

Time-entry sharing reduces duplicative effort and creates a consistent narrative for all timekeepers
