The LawVu legal workspace

See value fast with a platform that's intuitive for both legal and the business.

Intake & self-service

Improve service delivery and connection with the wider business.

Favorite features:

- Triage, prioritize and assign work to the right people
- Flexible and configurable intake request forms
- Self-service guides & contract automation

Contract management

Improve turnaround time and reduce risk with end to end contract lifecycle management and automation.

Favorite features:

- Easily connect matters and contracts for context
- Self service contract creation and management for the business
- Central, searchable contract repository including key dates

Insights & reporting

Make informed decisions and showcase the value of legal.

Favorite features:

- Instant access to matter, contract, spend and platform usage insights
- Easily filter, sort, drill down and export dashboards for faster reporting
- Standard and advanced reporting options

Matter management

Gain total oversight with the most comprehensive and user friendly matter management solution for in-house legal.

Favorite features:

- Intake & triage
- Collaboration within matters
- Matter grids – filter & save views

Spend management

Maximize the value of engaging outside counsel with our e-billing, spend and external counsel management tools.

Favorite features:

- E-billing and invoicing
- RFP management
- Secure collaboration and document management with firms and legal service providers

Workspace AI

Easy to use, secure AI-powered features increase efficiency and unlock insights across the workspace.

Favorite features:

- Workspace intelligence to query your entire workspace with natural language and highly relevant results
- Contract Q&A to find clauses and understand key terms and conditions
- Invoice and contract data extraction to reduce data entry and speed up review

Creating better business outcomes for modern legal teams around the globe

Create a consistent, unified legal department

“LawVu increases the speed with which we can access the knowledge we have while also allowing us to leverage the experience of team members in a more efficient and standardized manner. It’s allowing me to provide a consistent, unified legal department.”

Matthew J. Pentz
Assistant Town Attorney
Town of Cary

TOWN of CARY

Get time back

“When you have a tool like LawVu, it gives time back. We can now take an hour and a half to whiteboard, come up with a strategy, and actually think about a project instead of always having a knee-jerk reaction. I think that’s invaluable. Our team has saved two days a week on admin tasks as a direct result of using LawVu.”

Matt Brasch
Associate General Counsel

Be a better business partner

“LawVu has helped us take a more thought-out approach to how we prioritize work and how we resource the team by seeing the types or the complexity of the work that comes through. It has been a blessing for educating people on how to work with legal and helping us build those relationships of trust.”

Rosanna Biggs
General Counsel

Demonstrate value

“The biggest benefit for the legal team has been the time saving with our franchise documents. We were creating them manually and copy and pasting information into each document. They would take 90 minutes to 2 hours to create the suite of franchising documents. Because we’re using the contracts wizard now this comes down to 20-25 minutes to create.”

Nicola Gannon
Deputy Chief Legal Counsel
Craveable Brands

**craveable
brands.**

“We are saving **66% of time spent on tasks**
because it’s all in the one LawVu workspace...”

Deputy General Counsel & Director of Compliance

On average, the **LawVu legal workspace saves 3.16 hours** in admin time per team member
and **an additional 1.75 hours per contract.**
