-- WHAT YOUR AI CO-WORKERS TAKE ON

01 SOURCING

24/7 Search for the Right Candidates

You define who you are looking for; your AI co-workers do the rest, sourcing and outreach in your voice.

02 SCREENING

Every Application Reviewed in Minutes

Measured against your criteria, the strongest matches first, every assessment backed by evidence.

03 INTERVIEWS

First Interviews Held, No Scheduling Ping-Pong

Your AI co-workers hold the first interviews and arrange every follow-up.

04 REPORTING

See Where Candidates Drop Off

From time-to-hire to drop-off rate: the insights to sharpen your process.

05 • AI FLUENCY

What No CV Reveals

How confidently someone works with AI, measured against the level this exact role calls for.

06 • CULTURAL ADD

What Someone Adds That Your Team Is Missing

You see which perspective your team still lacks, instead of hiring profiles you already have.

-- WHY MATCH + THRIVE

- ✓ **You Stay in Command.** No applicant is filtered out by a machine. At five points in the process, a person always decides (GDPR Art. 22).
- ✓ **Co-Workers That Challenge You.** Your AI co-workers flag requirements that rule out good candidates, and keep refining your process.
- ✓ **Every Recommendation Evidenced, No Black Box.** For each recommendation, the requirement met and the point in the CV it rests on.
- ✓ **Your Data Stays in Europe.** Storage and processing exclusively in the EU, including by the AI models.
