OUR SIGNATURE BATH

Architectural Painted Finish

Available in any shade from our curated palette — this carbon neutral sealed eco-timber is custom finished to complement your space. Designed for outdoor living, it's durable, refined, and made to look beautiful for years to come.

Pictured here in **Moss Stone**, this clean, contemporary Star Bath pairs timeless design with a long-lasting finish that holds its depth and richness over time.

Each bath is completed in a high-performance exterior coating system, engineered to withstand New Zealand's sun, salt air, and seasonal extremes.

Plumbing Pathways

Two Primary Installation Pathways

There are two main ways to set up your Star Bath. Your plumber can help determine what's best for your site and services. *(For detailed technical guidance, please refer to our Installation Instructions.)*

1. Permanently Plumbed

Your bath is connected directly to hot and cold water lines — either house mains or a califont system. This creates a seamless, always-ready experience with fixed plumbing and a clean, integrated finish.

2. Hose-Fill (Flexible Setup)

Your bath is filled using a hot-water-safe hose connected to:

- An indoor mixer tap adaptor
- An outdoor mixer/tap setup
- Or a mains-fed hot water source

This option offers flexibility while still allowing connection to house mains if desired. It's simple, adaptable, and works beautifully in a wide range of settings.

If you're considering a hose-fill setup, talk to us about our **Freedom Fill** — a discreet, removable fitting custom made to suit your tapware or mains connection, designed to hold your hose securely while filling and lift off completely when not in use.

Mixers and Tapware

We offer a curated range of mixers — from practical and cost-effective through to premium statement pieces.

All options are selected to suit and properly fit the unique design of a Star Bath, including our distinctive wide edge. Whether you want something simple and functional or refined and architectural, we can guide you to the right choice.

BEYOND THE PALETTE

Subtle, or make it
unmistakably yours

We adore our curated Star Baths palette — but we're just as excited when customers choose to make something uniquely their own. Beyond our signature colours, we can custom-finish both cladding and composite elements to bring your vision to life.

Cladding: Choose any Resene colour at no extra charge.

Composite elements: Custom tint beyond our signature palette - \$100 per colour.
