

# EXPAT CAR LEASE

## CONSUMER CAR LEASE

As an expatriate, your stay in a foreign country can vary in duration. Car leasing gives you the flexibility to choose a lease term that suits your specific needs, whether it's for 12 months or several years. It eliminates the commitment and hassle of long-term car ownership, offering you a reliable vehicle for the duration of your stay and ensuring convenience and mobility.

## EXPATRIATES CAN LEASE A CAR WITHOUT A LOCAL CREDIT HISTORY

ExpatRide provides leasing for new and used cars in most countries. It can be challenging for you to receive credit approval in a new country without a local credit history. However, ExpatRide's global supplier network specializes in tailoring leasing options specifically for expatriates like you.

### AUTO INSURANCE

In most countries, auto insurance is included in the lease contract. However, when not included, we assist with competitive options.

## How to get started:

Contact us at [CARS@ExpatRide.com](mailto:CARS@ExpatRide.com) or visit [www.ExpatRide.com](http://www.ExpatRide.com) and complete the contact form. A Personal Car Shopper will assist with sourcing vehicles and creating tailored quotes according to your needs.

## Not having local credit history

The way all local banks and credit providers check your creditworthiness is by gathering your local historical data, such as:

- Last three payslips
- Residential address and time lived there
- Latest local tax return
- Run local credit report (where available)
- Employment details and income

As a newcomer to a foreign country without any local credit history, you'll likely be unable to provide most of the required items on this list. Instead, our suppliers work around the local credit system by requesting more attainable documents from you.

## Documents needed for lease approval

- Employment contract
- Copy of passport
- Copy of work visa (visa type may matter)
- Copy of driver's license
- Credit application form
- Bank details/bank statements (not all countries)
- Tenancy agreement and utility bills (not all countries)

## Three basic steps when leasing a car

These are general steps that apply to many countries where we offer expat car leases. For more specific details, please visit the page for your country on our website at [www.ExpatRide.com](http://www.ExpatRide.com).

### DETERMINING VEHICLE NEED

We will send you an introductory email with questions to help determine which of our lease or long-term rental programs are best suited for you (in some cases, a long-term rental may be the better option). This information will include your vehicle preferences, vehicle allowances, assignment start and end dates, and more.

### PERSONAL CAR SHOPPER SERVICE

Your Personal Car Specialist will explore all available vehicle options based on your needs, wants, and budget. They will then negotiate pricing on your behalf, suggest vehicle options, and provide personalized, non-binding quotes.

### INSURANCE, REGISTRATION, & DELIVERY

Should you decide to proceed, you will also receive assistance with practical matters such as car registration (where it's required) and delivery. Insurance guidance will be offered if insurance is not part of the lease program.

No, we work around the local credit system. To do this, a few documents (passport, work visa, employment contract, etc.) are required to obtain lease approval.

### What is Personal Car Shopper Service?

Our Personal Car Specialists work to find the best fit for each family. The goal is to match needs, wants, or budget. They will locate the preferred car with a dealer or manufacturer. In most cases, our Personal Car Specialist gets competitive pricing based on arrangements previously made with vehicle manufacturers, dealerships, and financing companies.

In addition to locating a suitable vehicle, they also complete all tasks from start to finish—including setting up a finance agreement, registration, license plate coordination, etc.

### Who is responsible for maintenance of a leased vehicle?

As part of the lease agreement, usually the lessee is responsible for servicing the vehicle in accordance with the manufacturer's minimum recommendations and as requested by the manufacturer in connection with any recall campaign.

### Who can drive the leased vehicle?

In most countries, any person named on the auto insurance policy can also drive the vehicle.

### What happens if the leased car must be returned before the end of the lease agreement?

This depends on the country and the type of lease agreement signed. In most cases, there will be a penalty, or the remaining months left on the lease will have to be paid.

### What payment options are available?

The monthly payment is set up to be paid directly from the lessee's local bank account to the finance company. In some countries, the monthly payment can be directly billed by ExpatRide to the employer/RMC.

### What other services does ExpatRide offer?

ExpatRide offers car rental, airport transfers, chauffeur service, armored cars, and bus service.

These services can only be offered if you work with a Relocation Management Company, and ExpatRide can invoice the cost directly to your RMC or your employer.
