

ECORIDE PROGRAM

Greener Global Mobility

EcoRide is ExpatRide's award-winning global sustainability program for employee mobility, designed to help your organization reduce CO₂ emissions through smarter, greener vehicle choices.

The easiest and most impactful way of lowering CO₂ during an assignment is choosing the right transportation solution.

Vetted Global Supplier Network

Access to electric and hybrid vehicles across more than 100 countries.

Greener-First Vehicle Selection

EcoRide choice program is designed to always choose the eco-friendlier option.

CO₂ Impact Tracking

Emission reductions per client, region, or vehicle type, ready to support Scope 3 reporting.

Lower Daily Costs

Save on fuel, maintenance, and local driving fees.

By switching to hybrid or electric vehicles, the "CO₂ budget" can improve by 5-6 times. Electric vehicles produce zero tailpipe emissions, meaning every mile driven is instantly better for our air and our climate.

1 ton of CO₂ emissions is equivalent to the following distance travelled by your car:

ELECTRIC

13,900 miles or 22,370 km

HYBRID

5,320 miles or 8,562 km

PETROL

2,433 miles or 3,916 km

"Our goal isn't to drive further or longer. It's to understand the **impact of every mile we choose to travel and how much cleaner that impact can be.** The point isn't more miles; it's better miles and doing better for our planet."

- Jesper Lovendahl, Founder & CEO, ExpatRide International

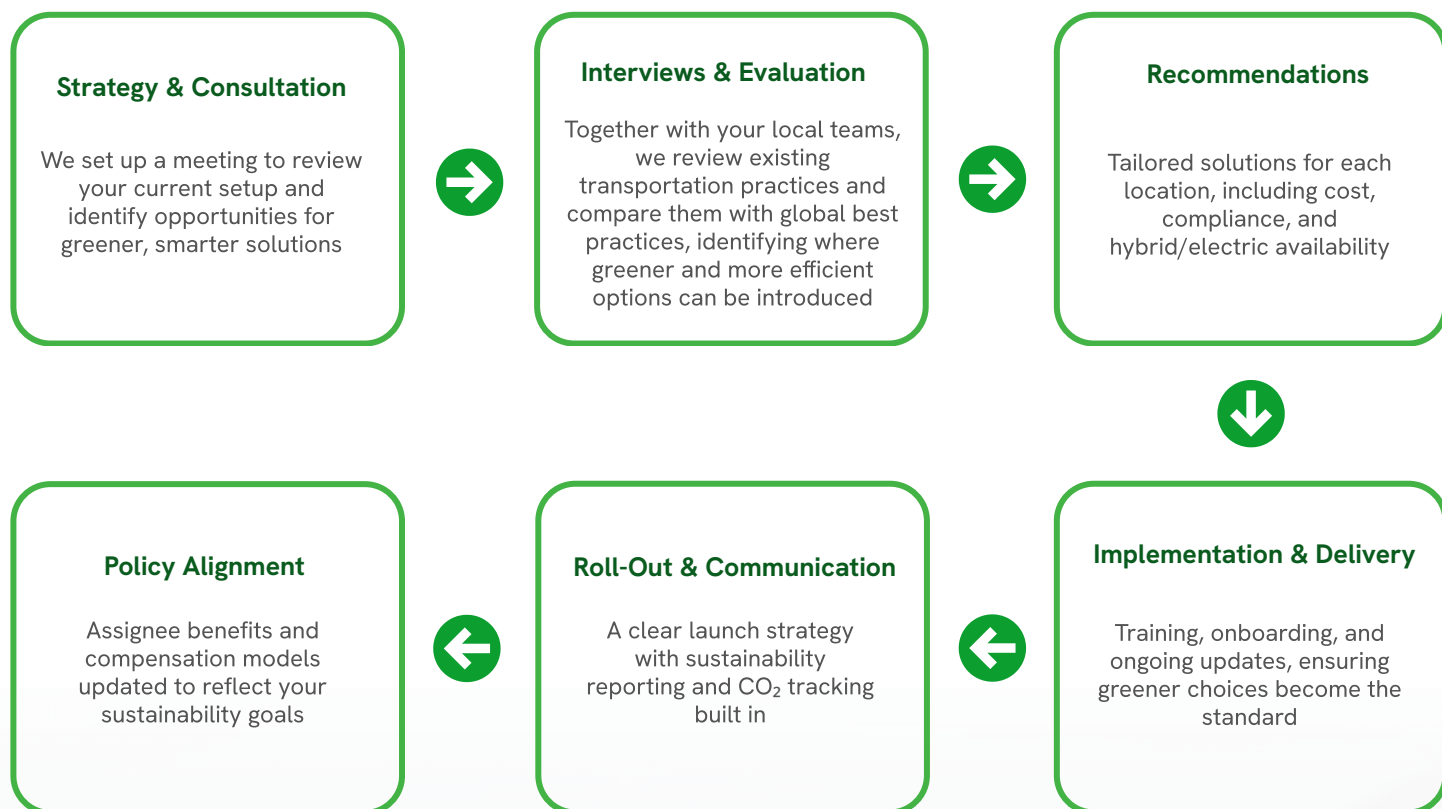

Maximize the Impact

The **EcoRide Transportation Plan** combines ExpatRide's Corporate Global Mobility Transportation Program with our award-winning EcoRide sustainability initiative. This one-stop solution ensures your assignees have seamless and environmentally responsible transportation options wherever their assignments take them.

The Benefits of a Transportation Plan

The **EcoRide Transportation Plan** is a crucial piece of your sustainability puzzle. Many companies overlook how assignees will get around in their new locations. We design a custom plan for your assignees, tailored to location, tier, and budget. By mandating sustainable vehicles in your mobility policies, you ensure lower emissions and real impact.

How it Works:

Minimize the Footprint

Significantly lower CO₂ emissions

Improve air quality

Reduce noise pollution

*Help your assignees make better choices for a better planet -
Choose EcoRide - Mandate sustainable vehicles - Accelerate the change.*
