VIP GLOBAL MOBILITY TRANSPORTATION PROGRAMS

Every journey. *Personally* attended to.

THE GAP IN YOUR PROGRAM

Housing is managed.
Immigration is managed.
The move is managed.
Ground is not.

Transportation is not optional in global mobility. **It never was.**

Every other element of a VIP relocation program is professionally managed. Ground transport is treated as an afterthought; it's left to the assignee, the DSP, or a ride-hailing app. That is not a gap. That is a failure. A VIP relocation without managed transportation is incomplete.

01

Fragmented Transportation Vendors *Zero Accountability*

A different car service supplier in every destination. When things go wrong, no one takes ownership.

02

Compliance Falls *Through The Cracks*

Driver vetting, duty of care, insurance checks, and policy enforcement are nearly impossible across multiple suppliers.

03

Your Team's *Administrative Drain*

Travel coordinators spend hours sourcing drivers and chasing confirmations. Time better spent elsewhere.

04

Brand Experience *Inconsistency*

Relocating employees face inconsistent car service standards. That puts your mobility program and your brand reputation at risk.

The ExpatRide Solution

**One partner.
Every ground.
Fully managed**

*One dedicated VIP coordinator per client
Ground mobility managed end-to-end
Globally consistent, locally executed,
Full visibility into your relocation program*

ExpatriRide has the broadest global transportation program

ExpatriRide is not a replacement for your DSP or rental car contract. We are the ground mobility layer that sits within the RMC program, coordinating across all suppliers and stepping in when the assignee needs dedicated human coordination.
