

SOLÉA

DUBAI'S FIRST FLOATING
BEACH CLUB

WHY DUBAI

Dubai is an international hotspot for luxury, events, and exclusive leisure activities. Over 90% of its residents are expats – many of whom have high purchasing power. With SOLÉA, we are creating a unique experience: the first floating beach club operating 360 days a year. The perfect complement to the city's thriving day and nightlife.

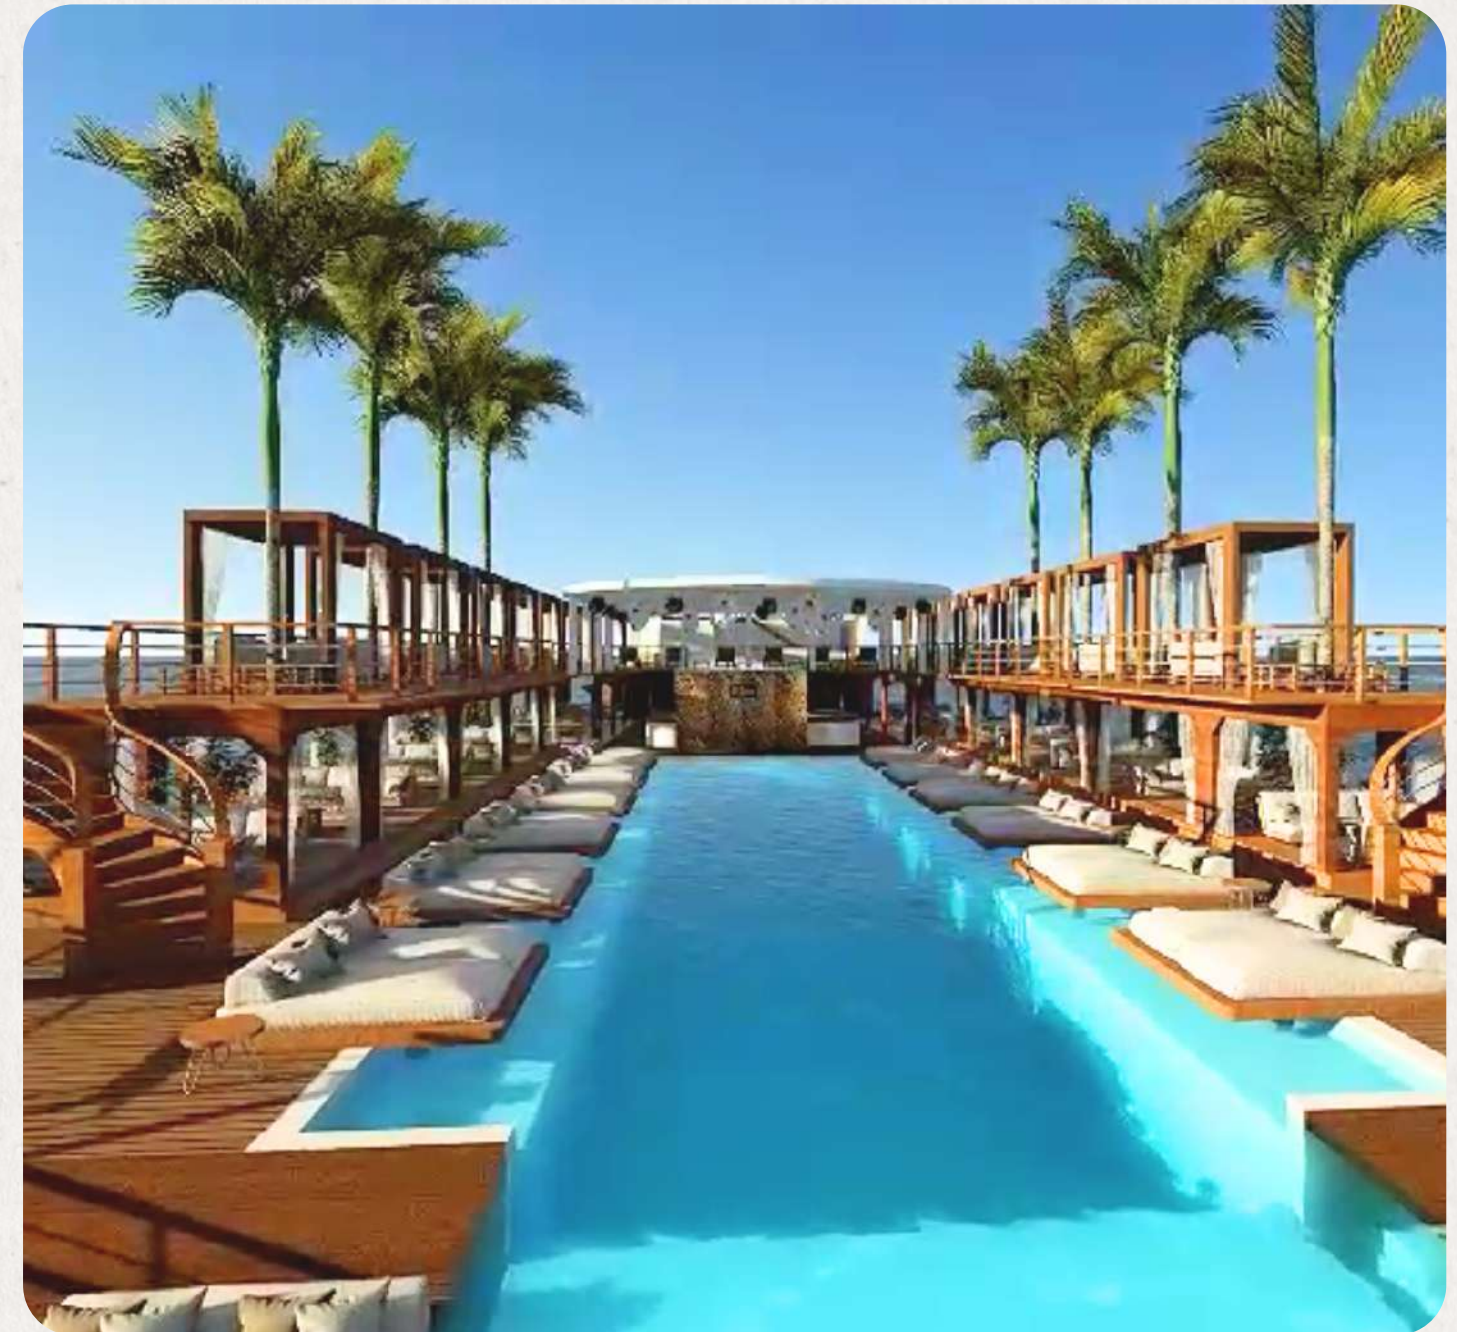

THE CONCEPT

SOLÉA offers a complete experience: a luxurious floating club with three daily tours – Breakfast, Mid-Day Beach, and Nightclub. With its own water treatment system, power supply, and transfer speed taxis, SOLÉA operates completely self-sufficiently. Guests experience exclusive events without compromise – with world-class cuisine, entertainment, and VIP flair.

TECHNICAL DATA & HIGHLIGHTS

- **Length:** 51.5 m
- **Width:** 21.8 m
- **Material:** High-quality marine steel
- **Decks:** 3 levels including VIP area
- **Capacity:** 500+ guests

- **Fresh water:** 60,000 L + own seawater desalination
- **Poolvolumen:** 200.000 L
- **Safety:** fire extinguishing systems, emergency exits, tracker bracelets, international event ship certification

USER EXPERIENCE

Tour structure:

- Breakfast Tour: 7:00–11:00
- Mid-Day Beach Tour: 12:00–20:00
- Nightclub Tour: 9:00 p.m.–3:00 a.m.

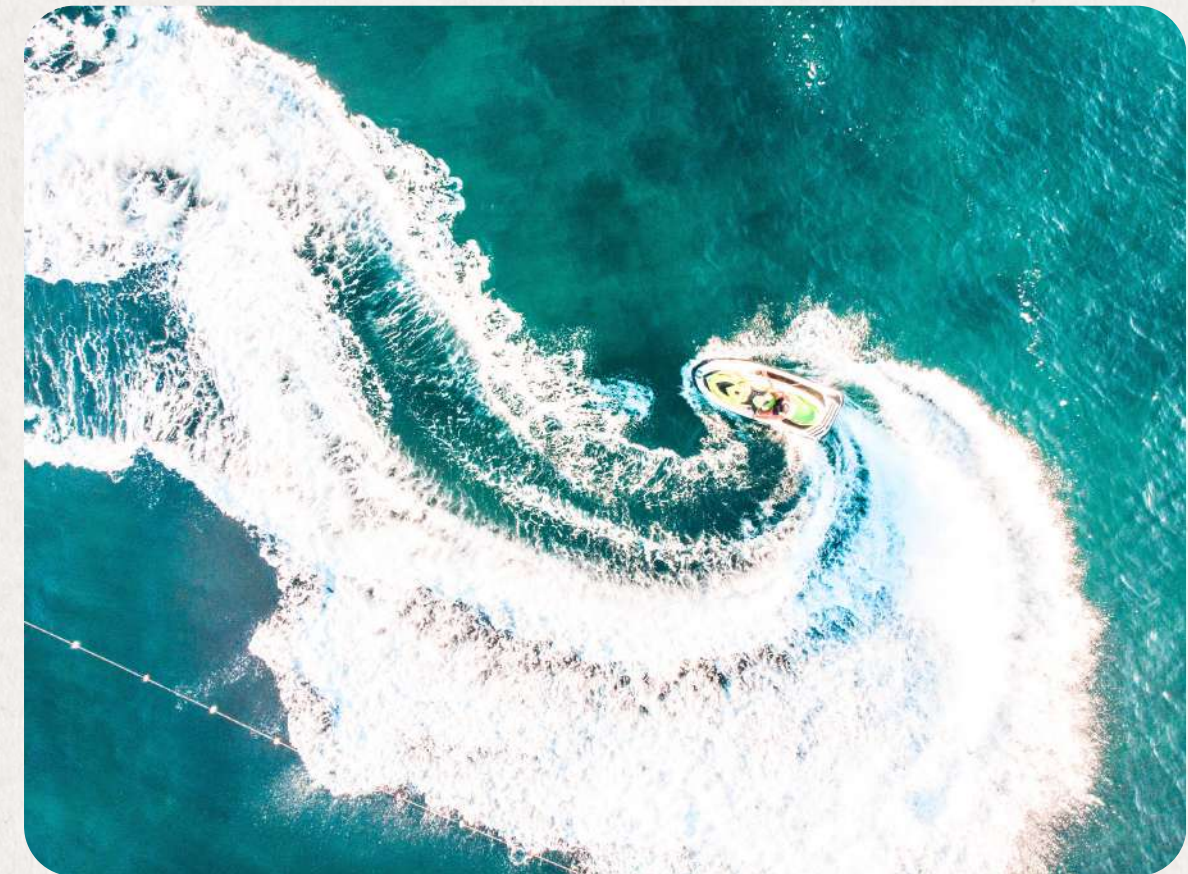

Each phase is individually designed for maximum guest enjoyment. DJ events, cabanas, fine dining, cigar lounges, jet skis, and more create a premium experience.

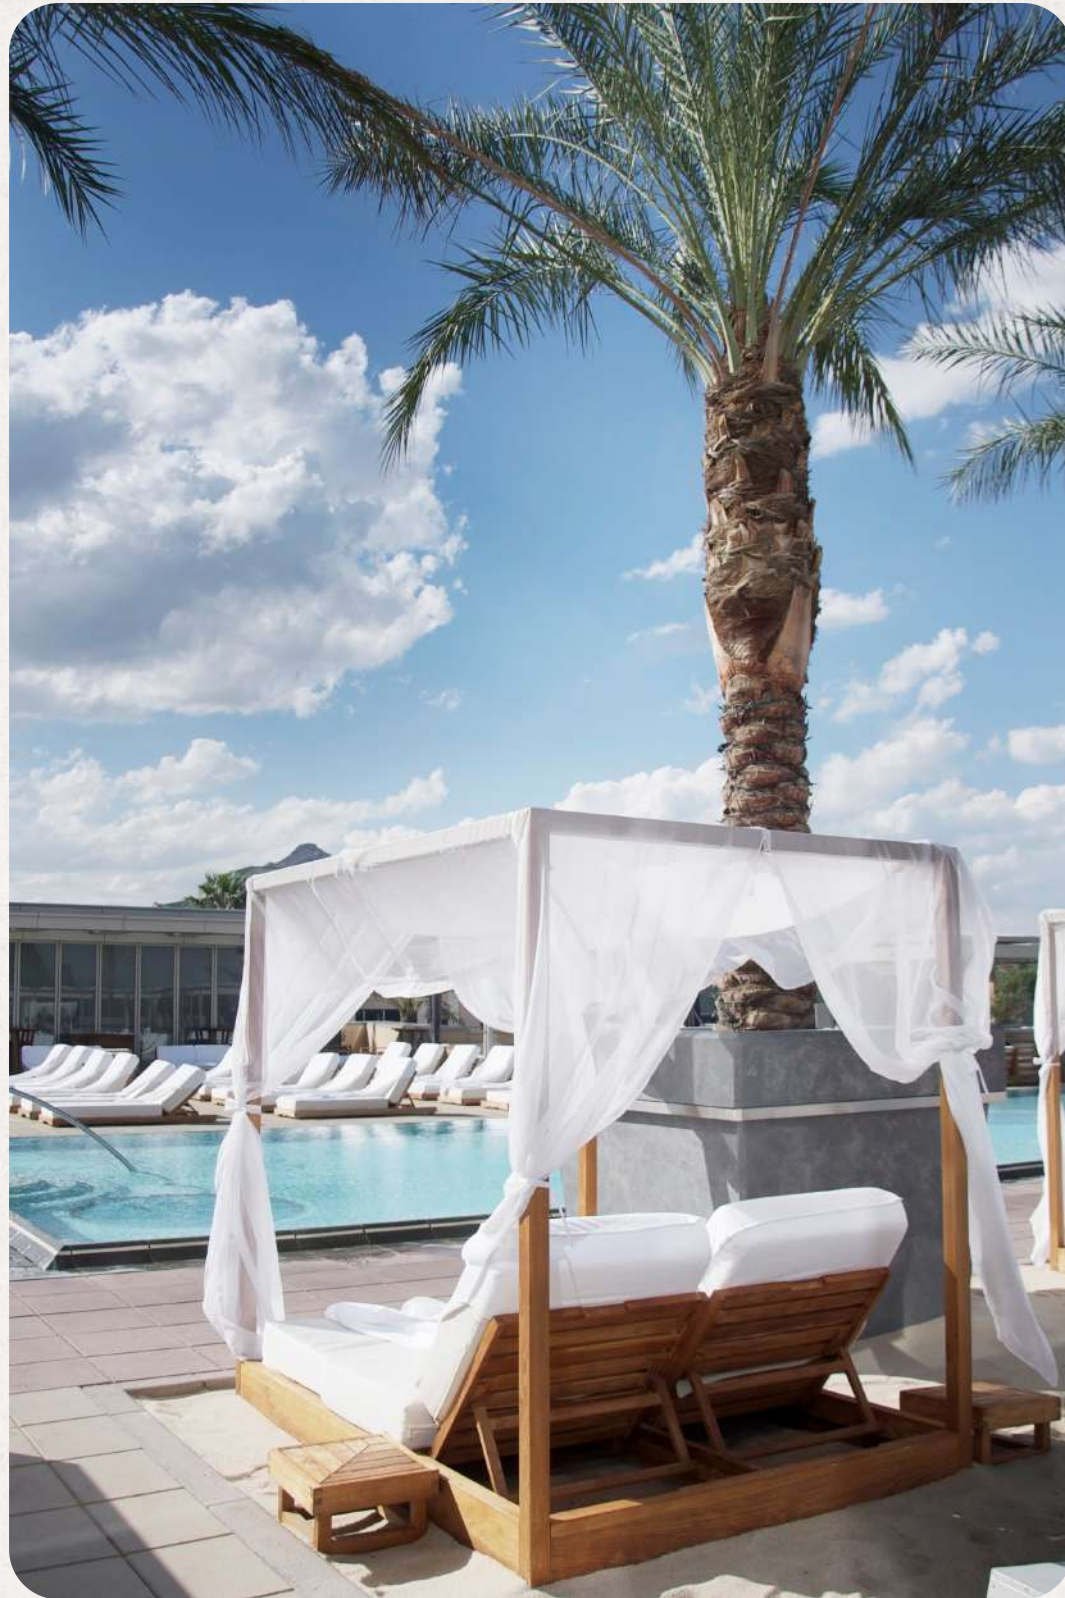

INVESTMENT & STRUCTURE

The project requires an investment of USD 9.98 million. This sum covers all construction costs, licenses, equipment, personnel, and marketing.

Investors receive:

- 12.5% – 15% return p.a.
- Annual dividends from the operation of the project
- Registration as a shareholder in a Dubai Mainland Company (personal registration required) → Owner of the Beach Club
- Entry possible from 100,000 USD

RETURN & POTENTIAL

Mid-Day Tour Entrance Fee: AED 1,500 per person. Up to 500 guests per slot generates a daily revenue potential of up to AED 2.25 million. Additional revenue from cabanas, alcohol, VIP areas, catering, and jet skis makes SOLÉA a high-return model. Breakeven is conservatively expected in the first year of operation.
