EVENT REPORT

WHERE AI MEETS THE WORLD

The global AI community converged at SuperAI

The inaugural edition of SuperAI was a resounding success. Thousands of innovators from over 90 countries filled the venue to maximum capacity, creating an electric atmosphere that reflected the optimism surrounding the latest advancements in AI and frontier technologies.

"SuperAI is a super place to connect on artificial intelligence that's going to become even more important."

EMAD MOSTAQUE
FOUNDER, STABILITY AI

"Everybody wants to know what's going on in AI. SuperAI has been the event to figure it out."

RAOUL PAL
CO-FOUNDER AND CEO, REAL VISION

"A high-energy event that brought together AI with the physical aspects of robotics."

MARC RAIBERT
FOUNDER, BOSTON DYNAMICS AI INSTITUTE

ARTIFICIAL INTELLIGENCE GLOBAL STARTUPS

Why Asia provides exciting opportunities for Artificial Superintelligence Alliance to scale

For the Artificial Superintelligence Alliance, the lack of legacy tech infrastructure in Asia provides opportunities to build new solutions

Anisa Menur A. Maulani
11 Jun, 2024

Hurayun Sheikh, founding investor of DeepMind, CEO of Fetch.ai, and the Artificial Superintelligence Alliance chairman.

As the discourse around the potential and growth of AI continues to intensify, it is important for stakeholders within the AI ecosystem, like Visa, to actively participate in these critical conversations. By engaging in these discussions, we aim to navigate the complexities of this evolving topic, identify opportunities, and collectively shape the future of AI with ecosystem partners. It is this commitment that led us to participate in the recent [SuperAI](#) conference.

Thanks to a long-standing link between the technologists working on traditional AI and the web3 developers building at the intersection of blockchain and AI, SuperAI made an effort to bridge this culture gap.

Had a great time at the SuperAI event last week!

Enjoyed a brilliant session by Marc Raibert, founder of Boston Dynamics and an engaging fireside conversation with Edward Snowden (live from Russia).

My positive takeaway was Max Tegmark's perspective: "AI will not make us obsolete, but it will make us superhuman."

Unveiling the next generation: the SuperAI Genesis Startup Competition

Sponsored by Amazon Web Services, SuperAI Genesis brought 10 of the world's most promising AI startups to Singapore to compete for global recognition, and a US\$200,000 prize pool.

With over 700 international startups applying, the candidate selection process was exceptionally competitive. The top 100 were extended invitations to SuperAI Singapore, and the top 10 were invited to showcase their innovations on the SuperAI show floor and on the Motiff Stage.
