AERODOME ALPHA®

The most powerful Drone as First Responder system ever built. Designed in the USA.

Aerodome Alpha

Aerodome Alpha sets a new standard for rapid response in public safety. NDAA-compliant, Alpha is purpose-built for Drone as First Responder (DFR), enhancing speed, coverage area, and camera power in a fully integrated solution.

The Fastest DFR Drone Ever Built

+ Reach speeds of 60 mph
+ Superior connectivity and safety
+ Cut response times in half
+ 15 antennas, 4 cellular modems, 1 parachute, 0 compromises

Advanced Imaging & Detection

+ Read license plates from up to 2,000 feet away
+ Highest definition thermal on an NDAA drone
+ Unmatched low-light performance
+ Clear detection and tracking day or night

Always-Ready Infrastructure

+ Redundant power and charging systems
+ Battery swaps in under one minute
+ Industrial-grade HVAC keeps Alpha ready 24/7
+ Launches within seconds when needed

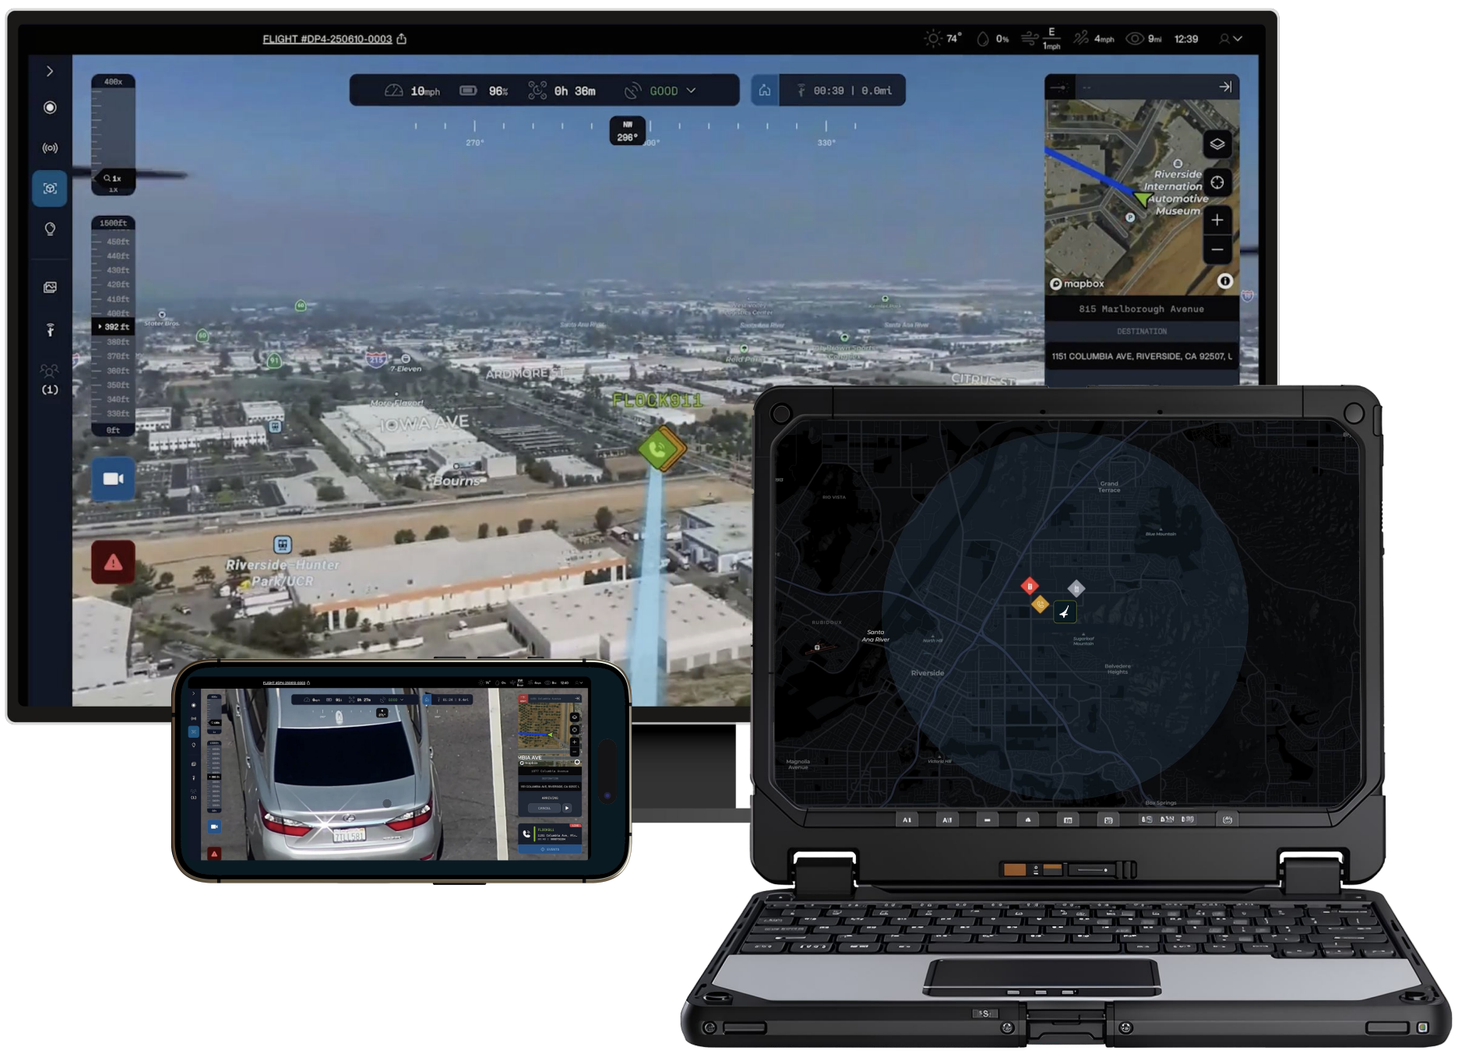

Your Agency. Future Ready.

Aerodome Alpha Provides Agencies with Unmatched Speed, Coverage, and Confidence.

Aerodome Alpha delivers real-time situational awareness within seconds of an LPR hit, audio alert, or call for service – all made possible through its seamless integration with the Flock ecosystem.

Aerodome Alpha is more than just the most advanced DFR system ever built. It's an end-to-end system supported by our team and powered by Aerodome software, which is already helping agencies respond faster, safer, and smarter than ever before.

NDAA Compliance

Designed & Assembled in the USA
