

Official Whitepaper — DiapersCoin & Vila Diapers

Preface

DiapersCoin was not born as a project. It emerged as a response to the pain of millions of families forgotten by the system. It is a coin with a soul, designed to connect blockchain and compassion to transform lives with structure, care, and dignity. Vila Diapers is the first concrete step: a safe, ecological space with housing, workshops, food, and technology — created to restore lives.

Mission

To create restorative, sustainable, and replicable shelter centers by connecting Web3 to real-world solidarity, focusing on women, children, and people in social vulnerability.

DiapersCoin Token (DIAPERS)

A social cryptocurrency on the Polygon network with a total supply of 1 billion tokens. Used both outside the village (for traceable donations, partnerships, campaigns) and inside (as symbolic currency for exchange, engagement, and education).

Vila Diapers

- 50+ standardized micro-homes made of containers or wood
- Community center with kitchen, psychology services, and workshops
- Separate clusters for women, children, the elderly, and (in the future) men
- Solar energy, Starlink internet, agroecological gardens, local diaper production
- Light governance, with shift leaders and community-based decision making

Education & Routine

All residents follow a structured routine with workshops in sewing, IT, arts, spirituality, self-care, and child education on topics like nutrition, respect, reading, cryptocurrencies, and finance.

Security & Transparency

- 24/7 monitoring
- Controlled access

- Strict code of conduct
- All activity registered on a public blockchain

Project Roadmap

1. Token created (✓ Polygon)
2. Branding finalized (logo, visual identity)
3. Multilingual website in development
4. Whitepaper finalized (PDF + online)
5. Social media & partnerships activated
6. Construction of the 1st village
7. Expansion to other territories

Replicable Model

The Vila Diapers model is open, adaptable, and coordinated by the Diapers network. It's not a franchise, but a multiplying system with ethical, technical, and logistical support.

Conclusion

DiapersCoin is Web3 with a soul. Vila Diapers is dignity with structure. Together, they offer a new way to turn pain into future. Support. Participate. Help build this possible world with us.
