

# DiapersCoin

## Official Whitepaper

Crypto With a Heart. Powered by Humanity.

A humanitarian Web3 movement dedicated to delivering essentials to families in crisis — powered by the Polygon blockchain, united by compassion, and built for real-world impact.

Version 2.0 · February 2026

Network: Polygon · Symbol: \$DIAPERS · Supply: 1,000,000,000

# Preface

DiapersCoin was not born as a project. It emerged as a response to the pain of millions of families forgotten by the system. It is a coin with a soul, designed to connect blockchain and compassion to transform lives with structure, care, and dignity.

Every child deserves dignity. Every parent deserves hope. This whitepaper outlines the vision, technology, and roadmap of a movement that transforms every blockchain transaction into a real act of kindness.

*"What if every person who buys, uses, or trades this coin helps donate diapers in the real world?" — That is the founding question of DiapersCoin.*

## 1. Mission

To create restorative, sustainable, and replicable shelter centers by connecting Web3 to real-world solidarity, focusing on women, children, and people in social vulnerability.

- ♥ Transform profit into care — one token at a time
- ♥ Build transparent, traceable humanitarian donations on-chain
- ♥ Construct Vila Diapers: a real physical community for vulnerable families
- ♥ Create a replicable model that can be scaled globally
- ♥ Empower communities through education, technology, and economic inclusion

## 2. The Token

Property	Details
Name	DiapersCoin
Symbol	\$DIAPERS
Network	Polygon (ChainID: 137)
Standard	ERC-20
Total Supply	1,000,000,000 (1 Billion)
Decimals	18
Contract	0xbC9F7F5082E6f5cA71b62b677Ab33aBc90Ab364B
Explorer	<a href="https://polygonscan.com/token/0xbC9F7F5082E6f5cA71b62b677Ab33aBc90Ab364B">polygonscan.com/token/0xbC9F7F5082E6f5cA71b62b677Ab33aBc90Ab364B</a>
DEX	QuickSwap V3 (DIAPERS/USDC.e pool)

## 3. Tokenomics

The total supply of 1 billion DIAPERS tokens is distributed to ensure long-term sustainability, community growth, and maximum social impact:

Allocation	Percentage	Purpose
------------	------------	---------

Community & Holders	40%	Airdrops, rewards, and community growth
Liquidity	30%	DEX pools and market accessibility
Donations & Social Fund	20%	Real-world humanitarian actions
Team & Operations	10%	Development, maintenance, and partnerships

## 4. Vila Diapers — The Physical Community

---

Vila Diapers is the first concrete, physical manifestation of the DiapersCoin mission: a safe, ecological, and structured shelter community designed to restore lives and dignity.

### Physical Structure

- 50+ standardized micro-homes (container or wood construction) with 1-2 rooms each
- Community center with kitchen, dining area, psychology support, and workshops
- Separate clusters for women with children, elderly, and orphaned children
- Solar energy system and Starlink internet for full connectivity
- Agroecological gardens and local diaper production facility
- Security: 24/7 monitoring, controlled access, and strict code of conduct

### Target Community

- Women escaping domestic violence, with their children
- Mothers with young children without support structure
- Homeless individuals in critical situation
- Children in severe vulnerability
- Future expansion: elderly and men in social recovery

### Education & Daily Routine

All residents follow a structured daily routine including workshops in sewing, IT, arts, spirituality, self-care, and child education on topics like nutrition, finance, reading, and cryptocurrency basics. The goal is reintegration with dignity.

### Governance & Values

- Community leaders elected by residents, with strategic coordination by the founder
- No alcohol, drugs, or cigarettes — strict code of conduct
- Transparent decision-making for residents on daily matters
- Vocational training and economic empowerment as exit strategy

### Sustainability

- Solar energy and composting for environmental self-sufficiency
- Starlink internet for education and remote work opportunities
- Local food production through agroecological gardens
- Internal token economy: residents earn DIAPERS for work and use them in the community store

### Ideal Location

Preferably Campina Grande do Sul (PR), Brazil — Atlantic Forest region. Target: 3–5 alqueires (72,000–120,000 m<sup>2</sup>) with road access, estimated cost R\$500,000–R\$700,000.

## 5. How It Works

---

### 01 Get DIAPERS

Buy DIAPERS on QuickSwap using USDC or MATIC on the Polygon network. Low fees, instant settlement.

### 02 Community Fund

A portion of every transaction is reserved for the humanitarian fund, directed to urgent social needs.

### 03 Token Mechanics

Blockchain tools ensure all fund movements are transparent, traceable, and publicly verifiable on Polygonscan.

### 04 Measurable Impact

Donations are documented publicly: families helped, diapers donated, and Vila Diapers construction progress.

## 6. Security & Transparency

---

- ◆ Smart contract verified and publicly auditable on Polygonscan
- ◆ All token movements permanently recorded on the Polygon blockchain
- ◆ Donation wallet address published and monitored publicly
- ◆ Monthly transparency reports published on the official website
- ◆ Community governance for donation decisions (DAO model, future phase)

## 7. Project Roadmap

---

### 2023 ✓ — Foundation

- Token created and deployed on Polygon
- Branding defined (logo, visual identity)
- Multilingual website launched
- Whitepaper written (EN + PT)

### 2024 ✓ — Liquidity & Market Presence

- Liquidity pool created on QuickSwap V3 (DIAPERS/USDC.e)
- First real-world social actions documented
- Social media and community channels activated

### 2025–2026 ● — Growth & Trust Wallet Listing

- Reaching 25+ holders on Polygonscan

- Trust Wallet listing approval
- CoinGecko / CoinMarketCap submission
- Partnerships with NGOs in Brazil
- First documented diaper donation campaign

### **2026–2027 — Vila Diapers — Phase 1**

- Land acquisition for Vila Diapers (Campina Grande do Sul, PR)
- Construction of first 50 micro-homes
- Solar energy, Starlink, and community infrastructure
- Launch of internal DIAPERS token economy
- Global expansion of the replicable Vila model

### **2027+ — Scale & Global Impact**

- CEX listings (CoinEx, BitMart, MEXC)
- DAO governance for donation decisions
- NFT campaigns for social fundraising
- App for payments and donations
- Replication of Vila model in other cities/countries

## **8. Future Vision**

---

DiapersCoin is not just another token. It is the seed of a new way of thinking about money — where profit and purpose are not opposites, but partners.

### **Short term (1–3 months)**

Trust Wallet listing, CoinGecko submission, 100+ holders, first NGO partnership

### **Medium term (6–12 months)**

Real-time donation platform, social impact NFTs, expansion to other networks

### **Long term (1–3 years)**

Global reference in social-purpose cryptocurrency, permanent community fund, own app for payments and donations

## **Conclusion**

---

DiapersCoin is Web3 with a soul. Vila Diapers is dignity with structure. Together, they offer a new way to turn pain into future.
