MISSOURI
BOATING STATISTICS AND DROWNINGS

2026 Edition

2025 Statistics

Department of Public Safety
Missouri State Highway Patrol

Introduction

This booklet is published by the Missouri State Highway Patrol as an aid to persons who are interested in recreational boating crashes and accidental drowning incidents occurring in the state. It contains information which provides a comprehensive look at statewide crashes and accidental drowning incidents as experienced in 2025.

The Missouri State Highway Patrol is the central recreational boating data collection agency for the State of Missouri. The Patrol investigates all recreational boating crashes occurring in the state and either investigates or gathers data on accidental drowning incidents occurring in state and private waters.

Interesting Statistics

Here at a glance are some interesting statistics found in this booklet:

- In 2025, there were 12 persons killed and 69 persons injured in recreational boating crashes in the state of Missouri. This was 2 fewer killed and 3 fewer injured than in 2024. There was a increase of 12.5% in total crashes statewide (144) compared to 2024 (128).
- In 2025, there were 144 total crashes including 79 property damage only, 54 injury, and 11 fatal.
- "Operated Too Close to Shoreline" was the leading contributing circumstance for all crashes followed by "Failed to keep proper lookout." "Impairment (alcohol/drugs)" was known to have been a contributing circumstance to 11 crashes statewide.
- "Inexperience of the operator" crashes resulted in the death of one person. This was 8.3% of the total persons killed in crashes.
- Of all crashes reported statewide, 76.4% (110) occurred during the months of May through August.
- Most crashes occurred on Saturday (44) and Sunday (28) and most (57) occurred from noon to 7:59 p.m.
- In 2025, 61.1% (88) of boat crashes involved just one watercraft. Nine of the 11 fatal crashes involved only one watercraft.
- Of the 155 boat operators involved in crashes, 75 had no prior boater education.
- In 2025, there were 25 persons killed in accidental drowning incidents occurring in state waters, 10 more than in 2024. There were also four accidental drowning incidents that occurred on private property and an additional three that were flood/other related.
- Most drownings occurred on Saturday (8) and Friday (5) followed by Sunday, Wednesday, and Thursday (3), and during the months of July and August (6).

It is hoped that the information in this booklet will be of value to you. Certainly it is the most comprehensive look available at statewide crashes and accidental drowning incidents in Missouri.

Alcohol Involvement

Drinking and Crashes - Whether or not a person has been drinking cannot always be determined at the scene of a crash. Because of the time lapse from the moment of occurrence until an officer arrives at the scene to make the investigation, a person's condition concerning drinking can change a great deal. In cases where the individual may have been removed to a hospital, doctor's office or funeral home, his/her condition may never be determined.

Alcohol Involved

Fatal Boating Crashes:
- Alcohol Involved 4
