

1. Sales

1.1 Aircraft

At Hammock Helicopter, we pride ourselves on being a trusted partner in aircraft sales. With a diverse selection of helicopters owned by us and available for immediate purchase, we offer solutions tailored to meet the specific needs of our clients.

In addition to our owned inventory, we provide comprehensive brokerage services, leveraging our extensive network and expertise to source the ideal aircraft for any requirement. Whether you're looking to buy a specific model or need guidance navigating the market, our team is dedicated to finding the perfect solution that fits your operational and budgetary goals.

With a commitment to transparency, precision, and value, Hammock Helicopter ensures every transaction is seamless and successful, making us your go-to source for aircraft sales and acquisitions.

1.2 Parts

Hammock Helicopter provides comprehensive parts sales solutions to keep your aircraft operational and efficient. Whether you need components from our extensive stock or require us to broker parts from the market, we ensure swift and reliable service tailored to your needs.

Beyond sales, we also specialize in facilitating repairs and overhauls of critical components, offering end-to-end support that prioritizes quality, safety, and cost-efficiency. With our expertise and global reach, we deliver the parts and services you need to maintain peak performance.

2. Services

2.1 Aircraft modification and conversion

At Hammock Helicopter, we specialize in transforming aircraft to meet your unique operational needs. Whether converting helicopters from VIP to medical or offshore configurations, or upgrading avionics systems for enhanced performance, our team delivers precision-engineered solutions.

Our services also include aircraft painting and interior refurbishments, ensuring your helicopter reflects your style and meets functional requirements. From technical upgrades to aesthetic enhancements, Hammock Helicopter offers comprehensive modification and conversion services designed to elevate your aircraft to its fullest potential.

2.2 Aircraft Maintenance

Hammock Helicopter is your trusted partner for top-quality aircraft maintenance, backed by our Part 145 approvals in Malaysia, Indonesia, and Cambodia. We have the capability to work on N-registered aircraft under our FAA IA and A&P signatures, ensuring full compliance with the highest industry standards. Additionally, we can perform maintenance under customer approvals or their signatory engineer's supervision, offering flexibility and peace of mind.

With a comprehensive inventory of over 6 000-line items in stock, we are equipped to perform tasks swiftly, reducing downtime and ensuring quick turnaround times. Our strong relationships

with MROs, parts OEMs, and distributors allow for swift parts purchases and deliveries, minimizing logistical constraints. We are committed to not just meeting, but exceeding deadlines, providing efficient and reliable maintenance solutions tailored to your needs.

2.3 Pre-Purchase Inspection

Hammock Helicopter provides comprehensive pre-purchase inspection services to ensure you make informed decisions when acquiring an aircraft. Our skilled team, equipped with the necessary tools and expertise, thoroughly inspects and evaluates the aircraft's condition, covering all technical aspects.

We also perform meticulous logbook and record-keeping audits, verifying the accuracy and compliance of documentation. Whether you are buying locally or internationally, our pre-purchase inspection services give you the confidence and assurance you need for your investment.

2.4 Packing and Shipping

Hammock Helicopter is a trusted expert in packing and shipping services, having successfully managed hundreds of aircraft movements across air, ocean, and land transport. Our team specializes in shrink wrapping and precise packing, ensuring your aircraft and components are transported securely and efficiently.

We also offer extensive expertise in creating custom shipping drawings and fabricating specialized shipping fixtures, tailored to meet the unique needs of each project. With a focus on safety, precision, and reliability, Hammock Helicopter guarantees a seamless shipping experience, no matter the destination.

Whether you require a full-service solution, including coordination with shipping lines, or standalone services such as packing and shrink wrapping, we adapt to your specific needs.

Our flexibility ensures you have control over the process, allowing you to outsource only the services you need while maintaining confidence in the quality and precision of our work. From inspection to transport, we provide reliable support at every step of the journey.

2.5 Dis-assembly and Assembly

Hammock Helicopter specializes in aircraft disassembly and assembly, offering tailored solutions for customers who require these specific services. Our experienced team can travel anywhere in the world to perform disassembly, ensuring the aircraft is prepared for transport. Once it arrives at its destination, we can be on-site to handle reassembly.

With the ability to arrange personnel at any stage of the process, we deliver seamless and reliable support, making your aircraft transitions smooth and stress-free. Whether standalone or part of a larger project, our services are designed to meet your exact requirements.

2.6 CAMO

Hammock Helicopter is broadening its capabilities to offer CAMO services for aircraft outside of our maintenance portfolio. Building on the expertise developed through managing airworthiness for our own fleet, we are extending this specialized service to deliver comprehensive and reliable solutions for a wider range of aircraft. Stay tuned as we enhance our offerings to meet the evolving needs of our clients.

CAMO tasks typically include:

- **Aircraft maintenance planning:** Developing and managing maintenance schedules to ensure timely servicing and inspections.
- **Airworthiness compliance:** Ensuring the aircraft meets the regulatory requirements of aviation authorities
- **Record-keeping and documentation:** Maintaining detailed and accurate records of all maintenance, modifications, and airworthiness certificates.
- **Monitoring aircraft condition:** Regularly reviewing and updating the aircraft's status, addressing defects, and planning corrective actions.

For customers, CAMO services offer peace of mind by delegating the complex and technical responsibility of managing airworthiness to experts. This ensures safe operations, compliance, and efficient fleet management.

2.7 Manpower support

Hammock Helicopter delivers expert manpower support solutions, designed to meet a broad spectrum of aviation needs. Our highly skilled and versatile team is available for global deployment, offering invaluable expertise in tasks such as aircraft maintenance, inspections, disassembly, assembly, and specialized aviation projects.

With a commitment to precision and safety, our personnel seamlessly integrate into your operations, whether for short-term assignments or long-term engagements. We can scale our support to align with your project's size and complexity, ensuring you have the right team in place to meet deadlines and exceed expectations.

From routine maintenance to complex aircraft projects, Hammock Helicopter's manpower support services provide the reliability and professionalism you need to keep your aviation operations running smoothly. Wherever you need us, we're ready to deliver.

2.8 Aircraft Evaluation

Hammock Helicopter provides Aircraft Evaluation services designed to give customers a clear understanding of an aircraft's market value and overall condition without delving into the depth of a full pre-purchase inspection. This service is ideal for customers who wish to gauge an aircraft's worth and identify potential issues early, ensuring no significant surprises arise later.

For businesses new to aircraft ownership, we offer tailored recommendations to match their specific needs. If customers are comparing multiple aircraft types, we can conduct evaluations for each, helping them make informed decisions. Once a choice is made, our team is ready to conduct a comprehensive pre-purchase inspection if required, ensuring a seamless and thorough process from start to finish.

3. About

3.1 Overview

3.1.1 Mission

At Hammock Helicopter, our mission is to be the trusted partner for all your helicopter needs. From meticulous aircraft maintenance and CAMO services to seamless shipping, assembly, and modification, we deliver A-to-Z solutions tailored to maximize value for our customers. Whether

it's pre-purchase inspections, packing and transport, or comprehensive aircraft support, we are committed to delivering unparalleled service and being your global partner in aviation excellence.

Driven by innovation, precision, and a legacy of over 20 years in the industry, we aim to set new benchmarks in safety, efficiency, and reliability. Our highly skilled and diverse team combines technical expertise with a modern approach to provide fast, cost-effective, and bespoke services that exceed expectations and adapt to your evolving needs.

3.1.2 Vision

At Hammock Helicopter, we envision a future where innovation and precision drive the helicopter industry forward. Our goal is to lead the transformation of aviation services by setting unparalleled standards in safety, reliability, and efficiency.

As a rapidly growing organization, we are committed to expanding our global reach and adapting to the changing needs of our clients. By embracing modern solutions and cultivating a team of world-class experts, we aim to shape the future of helicopter operations and become the partner of choice for those seeking excellence in every flight.

3.1.3 History

Hammock Helicopter was founded in February 2004, and by 2006, we were operating at full capacity, establishing ourselves as a trusted name in the helicopter industry. Since then, we have continually evolved to meet the demands of a dynamic and fast-paced aviation sector.

Led by Mark McGregor, a renowned aviation professional with over 45 years of experience, and Berenice Jaquet, who fosters a culture of motivation and collaboration, our team is built on a foundation of expertise and cohesion. Under their leadership, we have grown into a global organization known for delivering innovative, reliable, and tailored helicopter solutions.

Initially focused on core services like maintenance and inspections, we have expanded our offerings to include CAMO, aircraft modification and conversion, packing and shipping, disassembly, assembly, and more. Over the years, we've adapted to the changing needs of the industry, embracing digitalization and modern practices to remain at the forefront of aviation services.

As a company, we are proud of our journey and the milestones we've achieved. From our humble beginnings to becoming a leader in helicopter services, our story is one of growth, dedication, and a commitment to excellence.
