

# Aleap Bootcamp

A practical introduction to bringing health innovations to market

## Built for health innovators ready to move from idea to impact.

Health innovation is complex, time-consuming, and expensive — but you don't have to figure it out alone. Over two months, you'll gain practical tools, get honest expert feedback, and have access to a community that understands the journey.

### 3

In-person workshops

### 2

Months intensive

### 10–12

Selected teams

#### WHAT YOU GAIN

##### Your Bootcamp experience

- Master the fundamentals of health innovation and commercialisation
- Get direct feedback from entrepreneurs and industry experts
- Navigate regulatory, IP, and market access pathways with confidence
- Sharpen your pitch and understand how to attract the right funding
- Join a community of fellow innovators on the same journey

#### WHO SHOULD APPLY

##### Team eligibility

We select approximately 10–12 health innovation teams from:

- Academic research groups
- Early-stage spinout companies
- Pre-investment startups

*We especially encourage teams with data-rich biotech and medtech technologies.*

Not eligible: Data-only concepts (e.g. standalone digital health apps)
