

Release Update - FINESTRA/FHC v2024.2.2

Air Miles Patch Release

September 2024

New Features

This patch release completes the installation of remaining features to support Air Miles integration in Pharmasave stores.

- **Air Miles Integration** (*Pharmasave Only*)
 - Adjusted system to issue miles on redemption portion of transaction
 - Adjusted system to allow Air Miles cash redemption for Rx, if issuance is configured on Rx (SK, MB, NS only)
 - Activated Transaction Limit: 500 miles

User documentation for Air Miles Integration can be found on the POSitec Portal.

Fixes

The following fixes are included in this release:

- (OT#32975) Adjusted to not send collector info to Air Miles Issuance if card is not valid
- (OT#32814) Corrected issue where items could not be added to more than one group
- (OT#32973) Corrected error when manually creating BOGO offers by UPC or group
