OF YOUR RETIREMENT SAVINGS PLAN BENEFITS

YOUR GUIDE TO GETTING STARTED

Save for retirement through Ajinomoto Foods North America, Inc. 401k Savings Plan easily, regularly, and automatically.

With all the responsibilities and financial priorities you might be juggling – mortgage payments, parenthood, saving or paying for college, caring for parents, and more – it can be easy to overlook the need to save for retirement. But it's important to consider setting aside money for retirement as early and regularly as you can, because the quality of your retirement years could very well depend on how much you have been able to save.

As you consider enrolling in Ajinomoto Foods North America, Inc. 401k Savings Plan and selecting investment options for your account, please review this Enrollment Guide. It contains valuable information that may help you better understand the basics of investing, as well as help you make the most of your company's retirement savings plan.

PARTICIPATING IN YOUR **plan**

There are many benefits to participating in the Ajinomoto Foods North America, Inc. 401k Savings Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits® at www.401k.com, you can take advantage of what your company and Fidelity have to offer.

When am I eligible for the Plan?
You are eligible to participate in the Plan if:

- you complete 1 month of service
- you are at least 18 years old
- you meet the long-term, part-time employee requirement(s)**
- and you are not:
  - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
  - a leased employee
  - a nonresident alien and do not receive any U.S. earned income
  - On-call Employees and non-immigrant aliens who are on temporary assignment from the employer's parent company or its affiliates.

The Plan does not cover employees who are residents of Puerto Rico.

**Effective for plan years that begin on January 1, 2025, you are considered a long-term, part-time employee if you have two consecutive years with at least 500, but not more than 999, hours of service for each 12-month period. The 12-month period begins on your date of hire, however any service prior to plan year 2023 will not be counted for the two consecutive years requirement.

You are not eligible to participate as a long-term, part-time employee if you are:

- covered by a collective bargaining agreement
- a nonresident alien and do not receive any U.S. earned income

A service-based employee (e.g., part-time) who is otherwise excluded may now be eligible to participate in the plan if the requirement(s) identified in this section are satisfied.

How do I enroll?

To enroll, log on to Fidelity NetBenefits® at www.401k.com. You can also set up your beneficiary information by going to Fidelity NetBenefits® at www.401k.com or calling a Fidelity Representative at 1-800-835-5097 to request a Designation of Beneficiary Form to fill out and return to Fidelity.

Your plan has an automatic enrollment feature. If the automatic enrollment feature applies to you and you do not take action, you will be automatically enrolled at 3%. If the automatic enrollment feature applies to you, you will receive a separate notification indicating when deferrals will begin to be made on your behalf. If you do not select an investment, your Plan Sponsor has directed Fidelity to place your contributions in the Fidelity Investments target date fund that most closely aligns with your projected retirement date based upon your birth year.

If you would prefer to elect not to participate at this time or to specifically elect a contribution rate and/or investment options, please contact Fidelity by logging onto www.401k.com or call 1-800-835-5097.

When is my enrollment effective?
Once you satisfy these requirements, you will become eligible to participate in the Plan on the first day of the following month.

If you are a long-term, part-time employee who satisfies the age and service requirements, you are eligible to enter the Plan on the next entry date listed above, but only for purposes of making deferral contributions. You will not be eligible to receive any employer contributions.

How much can I contribute?
Through automatic payroll deduction, you may contribute between 1% and 75% of your eligible pay on a pretax and/or Roth basis, up to the annual IRS dollar limit (2026 = $24,500). You may change your deferral percentage as applicable. Any changes made would take effect on the first day of each month.

Unlike your traditional, pretax 401(k) deferrals, the Roth 401(k) feature allows you to contribute after-tax dollars, but then withdraw tax-free dollars from your account when you retire, provided the distribution is "qualified." A qualified distribution is one that is taken after the five taxable year period beginning January 1 of the year for which your first designated Roth contribution to the plan is made (or to a previous plan, if that amount was subsequently rolled over to the distributing plan) AND you turn age 59 ½, become disabled, or die. If you are eligible to make traditional pretax 401(k) contributions, you can also make Roth 401(k) after-tax contributions. Your total contributions to the plan (both Roth 401(k) after-tax deferrals and traditional pretax contributions) cannot exceed IRS limits, or your plan's limit, if less.

Your company's plan has established an Annual Increase Program which will automatically increase your contributions by 1% on December 31. Each year on the designated date, your contributions will increase by the amount your company has established which may be limited to a deferral percentage communicated to you by notice. If you want to contribute more to the Annual Increase Program or if you wish to opt out of the program, follow the instructions outlined in the notification letter.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you may make additional salary deferral contributions to the Plan up to the IRS Catch-Up Contribution Limit (2026= $8,000). Starting in 2025, the SECURE 2.0 Act increases the limit for you if you have attained age 60, 61, 62, or 63 in a given calendar year. The limit for 2026 is $11,250.

Starting in 2026, if your FICA wages from the prior calendar year with your current employer exceeded $145,000, any age 50 catch-up contributions to the Plan must be made as Roth contributions. If your FICA wages were $145,000 or less, your catch-up contribution may be pretax or Roth.

Can I move money from another retirement plan into this one?
You may be permitted to roll over eligible contributions into this Plan from a previous employer's retirement plan. For other eligible account types, please see your Summary Plan Description. Once you have confirmed that your Employer will accept your rollover contribution, you can get started in the "Rollovers" section online. ***Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.***

If you have a former qualifying workplace retirement account – like a 401(k) – with a vested pre-tax balance of $7,000 or less, your old account might roll over automatically with Auto Portability. It's like an automatic rollover as you move from your old job to your new job, so you don't have to roll over the money yourself. To learn more about Auto Portability, visit the Learn section on NetBenefits.com® and select the "Job changes" topic.

Does the Company contribute to my account?
Your employer will make Safe Harbor matching contributions to your account based on your contributions. The amount will equal:

- 100% of the first 3% of your eligible compensation contributed to the Plan
- 50% of the next 3% of your eligible compensation contributed to the Plan

To be eligible for Safe Harbor matching contributions you are required to:

- make employee pretax deferral contributions or Roth 401(k) after-tax deferral contributions. The plan will match on the combined total of these contributions up to the matching limit.

For purposes of determining your matching contributions under the Plan, your deferral contributions will include Age 50 and over Catch-Up Contributions described above.

Long-term, part-time employees are not eligible to receive any matching contributions.

When am I vested?
The term "vesting" refers to the portion of your account balance that you are entitled to under the plan's rules.
You are always 100% vested in your:

- employee pretax account
- rollover account
- after-tax account
- Roth 401(k) after-tax deferral account
- Safe Harbor matching contributions
- and any earnings thereon.

Can I take a loan from my account?
Although your plan account is intended for your retirement, you may take a loan from your account.

Can I make withdrawals from my account?
Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, disability, as a Required Minimum Distribution (RMD), or death. You may also be eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

Once you have left your employer and if you have a vested pre-tax balance of $7,000 or less, your old account might roll over automatically with Auto Portability. It's like an automatic rollover as you move from your old job to your new job, so you don't have to move the money yourself. To learn more about Auto Portability, visit the Learn section on NetBenefits.com® and select the "Job changes" topic.

How do I access my account?

INVESTMENT **options**

Before investing in any investment option, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

What follows is an introduction to the investment options you can choose for your plan account. You can spread your investments among several options to take advantage of what each has to offer and help balance different types of risk. Reviewing this information can help you understand and compare your options. For more complete information about any of the investment options available through the plan, including fees and expenses, log on to Fidelity NetBenefits® at www.401k.com for prospectuses. Read them carefully before you invest.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the date indicated. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

ADDITIONAL INVESTMENT **options:**

Target Date funds offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

STABLE VALUE FUNDS

Lincoln Stable Value Account
GAYR

Gross Expense Ratio: 0.45 as of 01/01/2016

Objective:
The Lincoln Stable Value Account seeks to maximize investment income while maintaining preservation of capital.

Strategy:
The Lincoln Stable Value Account is a group fixed annuity issued by The Lincoln National Life Insurance Company. It invests in a diversified portfolio of fixed income instruments. Lincoln Investment Management Company (LIMCO) is responsible for establishing, implementing, and providing oversight for the investment strategy and risk management of Lincoln Stable Value portfolios. LIMCO chooses external asset managers to research and select investments, with the exception of commercial mortgage and real estate sectors, which are managed internally. Guarantees for the Lincoln Stable Value Account are subject to the claims-paying ability of the issuer.

Risk:
The fund is backed by a diversified portfolio of fixed-income assets held in the general account of the issuer. Guarantees are subject to the claims paying ability of the issuer. Restrictions or fees may apply to exchanges or withdrawals. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance or may restrict withdrawals in these events. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide a declared crediting rate that is reset on a periodic basis.

Footnotes:
The investment option is an annuity. The fund is managed by Lincoln National Life Insurance Company. This description is only intended to provide a brief overview of the fund.

This investment option is not a mutual fund.

Short-term Redemption Fee Notes:
None

BOND FUNDS

Dodge & Cox Income Fund Class I
OFDZ

Gross Expense Ratio: 0.41 as of 06/30/2025

Objective:
The investment seeks a high and stable rate of current income, consistent with long-term preservation of capital; a secondary objective is capital appreciation.

Strategy:
The fund invests in a diversified portfolio of bonds and other debt securities. The fund will invest at least 80% of its total assets in (1) investment-grade debt securities and (2) cash equivalents. "Investment grade" means securities rated Baa3 or higher by Moody's Investors Service, or BBB- or higher by Standard & Poor's Ratings Group or Fitch Ratings, or equivalently rated by any nationally recognized statistical rating organization, or, if unrated, deemed to be of similar quality by Dodge & Cox.

Risk:
In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:
This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:
None

Fidelity® U.S. Bond Index Fund
2326

Gross Expense Ratio: 0.025 as of 10/30/2025

Objective:
Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg U.S. Aggregate Bond Index.

Strategy:
Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Risk:
In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:
This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.

Duration is a measure of a security's price sensitivity to changes in interest rates. Duration differs from maturity in that it considers a security's interest payments in addition to the amount of time until the security reaches maturity, and also takes into account certain maturity shortening features (e.g., demand features, interest rate resets, and call options) when applicable. Securities with longer durations generally tend to be more sensitive to interest rate changes than securities with shorter durations. A fund with a longer average duration generally can be expected to be more sensitive to interest rate changes than a fund with a shorter average duration.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

PIMCO Income Fund Institutional Class
OEKH

Gross Expense Ratio: 0.54 as of 08/01/2025

Objective:
The investment seeks to maximize current income; long-term capital appreciation is a secondary objective.

Strategy:
The fund invests at least 65% of its total assets in a multi-sector portfolio of Fixed Income Instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements. It may invest up to 50% of its total assets in high yield securities rated below investment grade by Moody's, S&P or Fitch, or if unrated, as determined by PIMCO.

Risk:
The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone looking for a fund investing in a mix of bonds that range from conservative to high risk and who can tolerate the risks associated with fixed-income investments.

BALANCED/HYBRID FUNDS

American Funds American Balanced Fund® Class R-6
OUBT

Gross Expense Ratio: 0.25 as of 03/01/2025

Objective:
The investment seeks conservation of capital, current income and long-term growth of capital and income.

Strategy:
The fund uses a balanced approach to invest in a broad range of securities, including common stocks and investment-grade bonds. It also invests in securities issued and guaranteed by the U.S. government and by federal agencies and instrumentalities. In addition, the fund may invest a portion of its assets in common stocks, most of which have a history of paying dividends, bonds and other securities of issuers domiciled outside the United States.

Risk:
Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to invest in a fund that invests in both stocks and bonds.
- Someone who is seeking the potential both for income and for long-term share-price appreciation and who is willing to accept the volatility of the bond and stock markets.

Footnotes:
This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2009. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 07/25/1975, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

DOMESTIC EQUITY FUNDS

Carillon Eagle Mid Cap Growth Fund Class R6
OSF5

Gross Expense Ratio: 0.66 as of 05/01/2025

Objective:
The investment seeks long-term capital appreciation.

Strategy:
The fund normally invests at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in the equity securities of mid-capitalization companies. The fund will invest primarily in the equity securities of companies that the portfolio managers believe have the potential for above-average earnings or sales growth, reasonable valuations and acceptable debt levels.

Risk:
Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:
This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 08/15/2011. None

Columbia Small Cap Value and Inflection Fund Institutional 3 Class
OK21

Gross Expense Ratio: 0.89 as of 07/01/2025

Objective:
The investment seeks long-term capital appreciation.

Strategy:
Under normal circumstances, the fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in equity securities of companies that have market capitalizations in the range of the companies in the Russell 2000® Value Index at the time of purchase that the fund's investment manager believes are undervalued and have the potential for long-term growth. It may invest up to 20% of its total assets in foreign securities, including depositary receipts. The fund normally invests in common stocks and also may invest in real estate investment trusts.

Risk:
The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Fidelity® 500 Index Fund
2328

Gross Expense Ratio: 0.015 as of 04/29/2025

Objective:
Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

Strategy:
Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States. The fund may operate as a non-diversified fund, as defined under the Investment Company Act of 1940 (1940 Act), to the approximate extent the Index is non-diversified. The fund may therefore operate as non-diversified solely as a result of a change in relative market capitalization or index weighting of one or more constituents of the Index.

Risk:
Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. The fund may have additional volatility because it can invest a significant portion of assets in securities of a small number of individual issuers.

Short-term Redemption Fee: 0.00

Who may want to invest:
- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:
This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Fidelity® Extended Market Index Fund
2365

Gross Expense Ratio: 0.035 as of 04/29/2025

Objective:
Seeks to provide investment results that correspond to the total return stocks of mid- to small-capitalization United States companies.

Strategy:
Normally investing at least 80% of assets in common stocks included in the Dow Jones U.S. Completion Total Stock Market Index, which represents the performance of stocks of mid- to small-capitalization U.S. companies.

Risk:
Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

MFS Growth Fund Class R6
OU8C

Gross Expense Ratio: 0.5 as of 03/28/2025

Objective:
The investment seeks capital appreciation.

Strategy:
The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. The adviser focuses on investing the fund's assets in the stocks of companies the advisor believes to have above average earnings growth potential compared to other companies (growth companies). The fund is non-diversified.

Risk:
Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Putnam Large Cap Value Fund Class R6
OK2J

Gross Expense Ratio: 0.54 as of 02/28/2025

Objective:
The investment seeks capital growth and current income.

Strategy:
The fund invests mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. Value stocks are issued by companies that the adviser believes are currently undervalued by the market. The adviser may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments.

Risk:
Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Putnam Small Cap Growth Trust Class S
PA52

Gross Expense Ratio: 0.5779 as of 10/31/2025

Objective:
The Fund will seek to capitalize on growing small companies.

Strategy:
The Fund typically invests at least 80% of its assets in the U.S. small companies of a size similar to those of the Russell 2000 Growth Index. The Fund may invest outside the U.S, including in emerging markets.

Risk:
The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Victory Sycamore Established Value Fund Class R6
OVIQ

Gross Expense Ratio: 0.54 as of 11/01/2025

Objective:
The investment seeks to provide long-term capital growth by investing primarily in common stocks.

Strategy:
Under normal circumstances, at least 80% of the fund's assets will be invested in equity securities of companies with market capitalizations, at the time of purchase, within the range of companies comprising the Russell Midcap® Value Index. It may invest a portion of its assets in equity securities of foreign companies traded in the U.S., including American Depositary Receipts and Global Depositary Receipts ("ADRs" and "GDRs").

Risk:
Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. INTERNATIONAL/GLOBAL FUNDS

DFA Emerging Markets Core Equity 2 Portfolio Institutional Class
OEFQ

Gross Expense Ratio: 0.4 as of 02/28/2025

Objective:
The investment seeks long-term capital appreciation.

Strategy:
The Portfolio purchases a broad and diverse group of securities associated with emerging markets, which may include frontier markets (emerging market countries in an earlier stage of development), authorized for investment by the Advisor's Investment Committee ("Approved Markets"). It may gain exposure to companies in Approved Markets by purchasing equity securities in the form of depositary receipts, which may be listed or traded outside the issuer's domicile country.

Risk:
Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets.
- Someone who is seeking to complement a portfolio of domestic investments and/or international investments in developed countries with investments in developing countries, which can behave differently.

JPMorgan International Equity Fund Class R6
OU4Y

Gross Expense Ratio: 0.6 as of 03/01/2025

Objective:
The investment seeks total return from long-term capital growth and income.

Strategy:
The fund invests at least 80% of the value of its assets in equity investments. "Assets" means net assets, plus the amount of borrowings for investment purposes. It primarily invests in foreign companies of various market capitalizations, including foreign subsidiaries of U.S. companies. The fund may invest in securities across all market capitalizations, although it may invest a significant portion of its assets in companies of any one particular market capitalization category.

Risk:
Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

TARGET DATE FUNDS

Fidelity Freedom® 2010 Fund Class K6
2990

Gross Expense Ratio: 0.24 as of 05/30/2025

Objective:
Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Strategy:
Designed for investors who have retired or expect to retire in or within a few years of the fund's target retirement year at or around age 65. Investing primarily in a combination of Fidelity U.S. equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Retirement Fund approximately 10 to 19 years after

the target year. Ultimately, the fund may merge with the Freedom Retirement Fund. Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of shareholders. A revised neutral asset allocation strategy for the fund is expected to take effect by the end of the first quarter of 2027. During the fourth quarter of 2025, the Adviser will begin transitioning the neutral asset allocation percentages to achieve the desired allocations. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10% for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

Investment performance of the Fidelity Freedom Fund products depends on the performance of the underlying investment options and on the proportion of the assets invested in each underlying investment option. The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Fidelity Freedom® 2035 Fund Class K6
2995

Gross Expense Ratio: 0.39 as of 05/30/2025

Objective:
Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Strategy:
Designed for investors who have retired or expect to retire in or within a few years of the fund's target retirement year at or around age 65. Investing primarily in a combination of Fidelity U.S. equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Retirement Fund approximately 10 to 19 years after the target year. Ultimately, the fund may merge with the Freedom Retirement Fund. Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of shareholders. A revised neutral asset allocation strategy for the fund is expected to take effect by the end of the first quarter of 2027. During the fourth quarter of 2025, the Adviser will begin transitioning the neutral asset allocation percentages to achieve the desired allocations. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10% for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:
Investment performance of the Fidelity Freedom Fund products depends on the performance of the underlying investment options and on the proportion of the assets invested in each underlying investment option. The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Fidelity Freedom® Retirement Fund Class K6
3001

Gross Expense Ratio: 0.24 as of 05/30/2025

Objective:
Seeks high current income and, as a secondary objective, capital appreciation.

Strategy:
Investing primarily in a combination of Fidelity U.S. equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a stable "neutral" asset allocation strategy. A revised neutral asset allocation strategy (approximately 17% in U.S. equity funds, 11% in international equity funds, 2% in commodity funds, 37% in U.S. investment grade bond funds, 5% in international bond funds, 2% in long-term treasury bond funds, 21% in short-

term inflation-protected bond funds, and 6% in short-term funds; allocations do not add to 100% due to rounding) is expected to take effect by the end of the first quarter of 2027. During the fourth quarter of 2025, Fidelity Management & Research Company LLC (the Adviser) will begin transitioning the neutral asset allocation percentages to achieve the desired allocations. The Adviser may modify the fund's neutral asset allocations from time to time when in the interests of shareholders. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10% for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

The fund is subject to risks resulting from the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk, and interest rate risk (as interest rates rise, bond prices usually fall and vice versa). This effect is usually more pronounced for longer-term securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

Incoming Rollover Instructions

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. Please Note: Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed.

- The check should be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to **www.401k.com** to initiate your rollover request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at **www.401k.com** to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:
Fidelity Investments Client Service Operations
P.O. Box 770003 Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at **www.401k.com** to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5097**. Please be sure you have beneficiary information for the Plan on file.

Acceptable rollover funds

The Plan will accept taxable* money from the following types of plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); conduit IRAs (rollover IRAs); non-conduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA; distributions of taxable monies made to you as (1) a Spousal beneficiary from a current or former spouse from these types of plans, or (2) an alternate payee pursuant to a qualified domestic relations order (QDRO). In addition, the Plan will accept the following money types if indicated below: Roth 401(k), Roth 403(b), or Roth 457(b); After-tax contributions from 401(a) and 403(a) plans.

***Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.**

Please note: Making rollover contributions to the Plan that consist of assets other than qualified 401(a), or 403(a) plan assets, or conduit IRA (rollover IRA) assets, may result in the loss of capital gains or 10-year income-averaging tax treatment associated with lump sum distributions from the Plan. If you may be eligible for this special tax treatment, you should consult your tax adviser and carefully consider the impact of making a rollover contribution to the Plan. Please talk to your tax adviser for additional information and review the special tax notice to determine if you're eligible.

Unacceptable rollover sources
The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or Required Minimum Distributions (RMDs). Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

[redacted]

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with section three of this form.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.

This information provides only a summary of the main features of the Ajinomoto Foods North America, Inc. 401k Savings Plan, and the Plan document will govern in the event of any discrepancy.

A mutual fund expense ratio is the total annual fund or class operating expenses (before waivers or reimbursements) paid by the fund and stated as a percentage of the fund's total net assets. For other types of investments, the figure in the expense ratio field reflects similar information, but may have been calculated differently than for mutual funds. Mutual fund data comes from the fund's prospectus. For non–mutual fund investment options, the information has been provided by the plan sponsor, the investment option's manager, or the trustee. When no ratio is shown for these options, it is because none was available. There may be fees and expenses associated with the investment option. Expense information changes periodically. Please consult NetBenefits.com for updates.

The Plan is intended to be a participant-directed plan as described in Section 404(c) of ERISA, which means that fiduciaries of the Plan are ordinarily relieved of liability for any losses that are the direct and necessary result of investment instructions given by a participant or beneficiary.

Fidelity retail products and services are offered separately from your employer-sponsored retirement plan.
