Tucked inside Osteria Luna is a small wine shop dedicated to sharing natural and low-intervention bottles with Bali’s southern coast. This collection of wines reflects the same ethos as our kitchen: honest, thoughtful, and deeply connected to place. More than just a retail corner, it is an extension of our table, offering guests the chance to bring the Osteria Luna experience home.

Our shelves hold a carefully curated selection of wines from small, family-owned and artisanal producers across Europe and Australia, many of which craft fewer than 10,000 cases a year. These are bottles defined by character and craftsmanship, often limited-production and rarely found in larger retail outlets.

The focus is on natural winemaking: minimal intervention, sustainable farming, and authentic expression of terroir. Every bottle has a story – of soil, climate, and people – and our team is on hand to guide discovery, share knowledge, and make choosing wine as enjoyable as drinking it.

For our neighbors in Uluwatu, the collection is also available for delivery, making it easy to enjoy natural wine at the beach, at home, or wherever your journey takes you.
