

AM EVO CLASSIC AM EVO CLASSIC X AM EVO CLASSIC ADVERT

AM Pedestal System

Our entry level **Acousto-Magnetic** is focused on strong detection of adhesive labels, and flexibility. It was designed to operate as one or several pedestal solution with easy installation and synchronization. Thanks to its small dimensions it is perfectly suitable for retailers with limited entrance area.

The **AM EVO CLASSIC** system proves that an economical solution does not mean sacrificing performance or quality. Equipped with our latest AM technology detects soft labels on up to 2 meters.

The EVO CLASSIC comes in three design options in three colors where **EVO CLASSIC** is open frame antenna, **EVO CLASSIC-X** is a transparent pedestal that easily blend with any store entrance and **EVO CLASSIC ADVERT** is equipped with a popular advertisement panel for further marketing use.

The **EVO LINE** supports remote connectivity and data collection and can also be connected to our **STOREMONITOR** cloud platform for advanced system and store performance analytics. In addition to all these options and features, the system is equipped with our new smart **ECO MODE** that **saves up to 35% of the EAS energy consumption**. This way we help to reduce our customer's unnecessary utility costs, increase lifespan of the system and stay environmentally friendly.

Features & options

- Remote maintenance and diagnostics
- Advertisement panel
- Jammer detector
- Tag too close indication
- **ECO MODE**

Integrated Remote connectivity ensures that our systems are not only easy to install but can also be serviced and maintained remotely with fast response and without unnecessary travel costs.

Our Classic line of pedestals are available in three standard colours (silver, black and white) as well as two stylish options.

An advertisement panel on your security system can be an additional sales tool with our "easy slide" access to printed banner replacement. An identical pedestal but without the opaque panel, the Classic open pedestal features a transparent appearance that blends in with the surrounding space.
