

EASYDET CRYSTAL

RF Dual Pedestal System

Reliable and proven RF (Radio-Frequency) two-pedestal system with good detection of tags and adhesive labels. The Easydet system is suitable for most environments and has excellent resistance to challenging environments and other article surveillance systems.

The **RF Easydet system** is ideal for retailers located in shopping centers, who are looking for a standard loss prevention system that provides good, reliable protection. The high-quality acrylic pedestal is designed to meet the stylish and modern requirements of premium retailers while still maintaining the cost-effectiveness of the Easydet system.

Features & options

- Metal detection
- Alarm light
- Decoration light
- Low frequency option

For retailers facing losses due to professional shoplifters equipped with foil-lined bags, the SMART pedestal line can be upgraded with our integrated analog **MetalSpy** (aluminum foil bag detector), enhancing the level of your merchandise protection.

The **premium crystal acrylic** panel is manufactured from the highest grade, preventing discoloration and warping. The included multi-coloured LED lights can be configured to not only display the alarm colour that you wish, but also the light the antenna permanently in an attractive glow.
