Where Timeless Vitality Meets Visible Rejuvenation

Welcome to Founders Health

“Where regenerative science meets aesthetic excellence”

At Founders Health, we believe in the harmony of visible health and enduring vitality. Located in the heart of Belgravia, our clinic represents a new paradigm in aesthetic medicine - where pioneering specialists wield tomorrow’s technologies to create transformations that are both immediate and lasting.

Our approach transcends traditional aesthetics. We don’t just enhance appearance; we optimise cellular function, regenerate tissue, and unlock your body’s inherent capacity for renewal. Every treatment is a step toward a more vital, confident, and authentically beautiful you.

Where optimal wellness meets cellular precision.

FOUNDERS HEALTH

IV Drip and Peptides

Optimal wellness delivered directly to your cells

FH Base

£150

Designed as the core of our precision-medicine IV therapy program, FH Base delivers a targeted blend of essential vitamins and micronutrients—including B-Complex, B5, B6, B12 and additional key cofactors—to support whole-body vitality from the cellular level up.

This foundational infusion is engineered to help optimise metabolic function, elevate energy, support immune resilience, and promote restorative sleep. By nourishing the body's core biochemical pathways, FH Base also contributes to enhanced cognitive clarity, healthier-looking skin, and overall cellular well-being. Whether used alone or as the starting point for a personalized longevity protocol, FH Base provides the essential nutrients your body depends on to perform at its best—today and over the long term.

Skin Brightening

£250

Our Skin Brightening Infusion builds upon the essential nutrient foundation of our FH Base formula, enhanced with a high-dose Vitamin C complex to support collagen synthesis, antioxidant protection, and a more luminous, even-toned complexion from within.

As part of our precision-medicine approach, a comprehensive blood test is required prior to treatment to ensure optimal safety and personalised dosing.

For best outcomes, we recommend a course of Skin Brightening Infusions, allowing the body to progressively replenish key nutrients and support sustained improvements in skin clarity and vibrancy. Rediscover your natural radiance through science-guided cellular care.

Brain Optimisation

£370

This calming infusion of natural amino acids and essential minerals, including Magnesium and Ornithine is designed to help you unwind, restore balance, and regain peace of mind during times of stress. The therapeutic blend supports deep, restorative sleep, enhances focus and concentration, and promotes lasting mental clarity. It also aids in mood balance, encourages mindfulness, and helps the body adapt to the demands of everyday life - leaving you feeling calm, refreshed, and rebalanced.

Skin, Hair & Nails

£350

Skin, Hair & Nails Infusion is enriched with essential amino acids, including Biotin, and a powerful blend of vitamins designed to revive dull, thinning hair, nourish dry skin, and strengthen brittle nails. While it can be enjoyed as a one-off treatment, a course is recommended for optimal results. This targeted infusion supports natural Keratin and Collagen production, promotes healthy hair and nail growth, enhances shine and strength, improves skin tone, and helps rejuvenate the skin from within.

Anti-Aging

£370

Anti-Ageing Drip delivers a powerful blend of vitamins and amino acids, including Glutathione, specifically formulated to combat the visible signs of ageing. This advanced infusion supports natural collagen restoration, promotes a more even skin tone, and leaves the skin looking radiant and firmer. By helping to rejuvenate connective tissues such as elastin, deeply hydrate the skin, neutralise free radicals, and support cellular renewal, this drip works from the inside out to restore a youthful, healthy glow.

Diet & Detox

£400

This infusion delivers a targeted blend of vitamins and amino acids designed to help metabolize stored carbohydrates and fats. It supports the reduction of toxic load, boosts energy, and promotes overall wellness. Ideal for complementing a weight-loss plan or detoxing after indulgent weekends, this treatment helps metabolize stored fats, increase energy levels, and neutralize free radicals—helping your body return to optimal health.

Immuno Support

£370

Feeling run down? The Immune Booster infusion delivers a carefully balanced mix of vitamins, minerals, and antioxidants to help strengthen and revitalize your immune system. Formulated with Zinc, a range of amino acids including Arginine and Lysine, Glutathione, and a higher dose of Vitamin C, it supports the body's natural defenses while helping to boost energy levels and detoxify. This infusion reduces oxidative stress, enhances immune function, and promotes overall vitality.

Energy Booster

£290

Our Energy Boost infusion is packed with essential B vitamins, which are vital for the body to produce and utilise energy efficiently. It also contains a balanced blend of amino acids, including Taurine and Carnitine, to naturally enhance energy levels. This infusion supports mental clarity, sharpens focus, and provides the perfect boost for those with fast-paced lifestyles. It replenishes essential vitamins and minerals while helping you feel energised, alert, and ready to take on the day.

Pre / Post-Work Out

£240

Designed as the core of our precision-medicine IV Maximise your performance and recovery with this targeted infusion. Pre-workout, it provides stamina and sustained energy, packed with natural vitamins, minerals, and amino acids to support ATP production, enhance fat metabolism, and help you power through your training sessions. Post-workout, it replenishes essential minerals and electrolytes, aids muscle repair, and promotes restful sleep to support rapid recovery. Perfect for boosting energy, repairing muscles, and replenishing vital nutrients for overall peak performance.

Myers Cocktail

£240

The Myers' Cocktail is a classic, all-purpose intravenous infusion designed to support overall wellness and vitality. It delivers a potent blend of essential vitamins and minerals, including Magnesium, Calcium, Vitamin C, and a range of B vitamins, directly into the bloodstream for maximum absorption. This infusion helps to boost energy, support the immune system, reduce fatigue, improve mental clarity, and promote general wellbeing. Ideal for those looking to rejuvenate the body, enhance recovery, and maintain optimal health.

Glutathione ADD ON

£90 / 3 for £250

Glutathione is a powerful antioxidant that supports the body's natural detoxification processes and helps neutralise free radicals. This add-on is ideal for enhancing skin clarity and brightness, supporting liver function, and boosting overall cellular health. By helping to reduce oxidative stress and support immune function, Glutathione promotes a clearer complexion, improved vitality, and a refreshed, rejuvenated glow from the inside out.

Biotin Injection

£70 / 3 for £190

The Biotin injection delivers a concentrated dose of this essential B vitamin to support healthy hair, skin, and nails. Biotin plays a key role in keratin production and energy metabolism, helping to strengthen hair and nails while supporting radiant skin. This injection also supports the metabolism of fats, carbohydrates, and proteins, making it an excellent option for those looking to enhance their natural beauty while supporting overall wellness.

B12 Injection**£70 / 3 for £190**

The Vitamin B12 injection provides a fast and effective boost to support energy production, mental clarity, and nervous system function. Vitamin B12 is an essential vitamin, and approximately 90% of vegan and vegetarian diets can lead to a B12 deficiency, making supplementation especially important for those following plant-based lifestyles. Essential for red blood cell formation and metabolism, B12 helps combat fatigue, improve focus, and support overall vitality. Ideal for those feeling run down or experiencing low energy levels, this injection helps restore balance and promotes sustained energy throughout the day.

Vitamin D Injection

-

Vitamin D is essential for immune health, bone strength, and muscle function. This injection delivers a highly absorbable dose to support calcium absorption, promote strong bones and teeth, and support the body's natural immune defenses. Particularly beneficial for those with low sun exposure or deficiency, Vitamin D helps improve mood, support overall wellbeing, and maintain optimal health year-round.

Fat Burner Shot recommended.**£100**

The Fat Burner Shot is a targeted injection designed to support fat metabolism and energy production during a diet or weight-loss regime. Formulated with a comprehensive blend of B vitamins, multiple concentrated amino acids, and Vitamin C, it helps the body convert stored fat into usable energy while supporting metabolic efficiency. This shot also supports energy levels and reduces fatigue, making it easier to stay consistent with nutrition and training goals. For optimal results, one injection per week is recommended while following a diet or weight-management programme, helping support a leaner, more energised feeling.

NAD+ Protocols

NAD+ is a vital coenzyme that supports cellular energy production, metabolism, and overall vitality. This injection helps optimise mitochondrial function, supporting mental clarity, focus, and sustained energy levels. NAD+ also plays a key role in cellular repair and healthy ageing, making it an ideal add-on for those looking to enhance performance, support recovery, and promote long-term wellbeing.

Loading Regime - 250mg, 500mg, 750mg	£1000
NAD+ 250mg	£250
NAD+ 500mg	£500
NAD+ 750mg	£750
NAD+ Microdose 100mg	£150
