

CHINO

ADVENTURE WITHOUT COMPROMISE:
DURABILITY, VERSATILITY, AND LUXURY ALL IN ONE VAN

Highland RIGS®

2025

**STARTING AT
\$145,000**

CRAFTED FOR COMFORT, WHEREVER YOU ROAM

FLEXIBLE

Built for functionality, the Chino is designed for maximum comfort and sleeps four adults. Its convertible bed-and-lounge system is designed to flow seamlessly between dining, working, relaxing, and resting - never limited to just one purpose.

VERSATILE

Equipped and ready for any season, the standard outfit comes with Dometic RTX 2000 AC unit, Velit air heater, and hot water. As well as upgrade options that include: Hydronic heating, instant hot water, and heated floors.

POWERFUL

The Chino has 600 AH of LifePO4 battery system, 400 kw of solar charging, alternator charging, and shore power hookup.

CAPABLE

No compromise even off grid. 36 Gallon fresh water tank, electric water heater, space saving Tetravan shower, filtered drinking water, and outdoor shower. Fully equipped to meet all your needs.

NO LIMITS

Compact and Spacious. Room to cook, store, and enjoy. Full kitchen sink, spacious Dometic refrigerator, and induction cooktop. Custom cabinetry with plenty of storage and a large garage ready to be optimized for any application

- TV/Projector
- Starlink
- Custom Garage Storage
- Wench
- Bike Rack
- Rear Ski Locker

DON'T SEE WHAT YOU ARE LOOKING FOR?

There are endless possibilities, tell our team what you want and we will make it happen

FREQUENTLY ASKED QUESTIONS?

Q Will I be ready to travel right away, or should I expect to make modifications?

A The Chino Mini is fully equipped to hit the road right away. However, there are a multitude of upgrades that we offer in order to best suit your needs. These upgrades can be added at the time of purchase or later down the road.

Q How long will my build take?

A We plan for a 6 - 8 weeks from initial build deposit to delivery date. This timeline can change depending on added upgrades or any custom build.

Q How Long Can I Stay Off Grid?

A Everyone's energy usage is different, but with our battery system, 400W of solar, and alternator charging, most can comfortably stay off-grid for weeks at a time.

Q Does it have a full bathroom?

A The Chino Mini does not have a "traditional" bathroom but is equipped with a Tetravan fold-out shower and a Thetford portable toilet. With 2 years of full-time van life under our belts, we don't think a full bathroom is an optimal use of space. We're happy to work with custom clients on this.

Q What kind of upgrades do you offer?

A We have a list of possible upgrades that we offer, but that's only the tip of the iceberg! There are countless products and solutions that can be added in order to create a van that fits your needs. We know that your needs/wants can change and develop as you use your van, so we design our base layouts to be upgrade-friendly to maximize future additions.

Q What is the warranty on the vehicle and build?

A Our builds carry a 3-year, 50,000 mile warranty. The vans carry dealer warranties which can vary based on make and model.
