DESCRIPTION

STANDARDS

C€ 0426

EN 353-2 EN 567 EN 12841 A/B

FEATURES

420 g with connector

unique

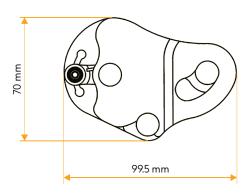

MATERIALS

90 % aluminum alloy10 % stainless steel

TECHNICAL DATA

K04000BB Version: 10/2024

COMPARISON

BACK-UP vs. LOCKER

- the steel body ensures longer lifespan
- certified for use with ropes with diameters of 10.5 and 11 mm
- a certified steel connector is included with the product

LOCKER

MAINTENANCE

Lifetime of this product is not strictly limited by the manufacturer. Depending on the condition of the product and its history it may be necessary to retire it immediately.

If necessary, we recommend lightly lubricating with silicone oil.
