

ATOM™ CE HARNESS

CE EN 361, EN 358, EN 813

Our most comfortable and fully-featured harness, the ATOM incorporates years of expert feedback from technicians who spend long hours in a harness. The final product is a true workhorse that redefines how a harness should feel and delivers exceptional safety, mobility, and workflow efficiency. Our ATOM CE model is assembled in Europe, certified to EN standards, and readily available for our European customers.

FEATURES

- Designed with versatile, low-profile components for technicians working on rope.
- Dual density foam padding with rolled edges provides optimal load distribution.
- Y-back construction and bridged front lift improve comfort & minimize pressure.
- Polyester web is supple, water repellent, UV resistant, and holds its fit when adjusted.
- Aluminum D-rings at the ventral, sternal, and dorsal attachment points keep the harness lightweight while fitting multiple connectors.
- Aluminum side D-rings stow away until needed for work positioning.
- Molded gear loops with cold resistant, polypropylene core to maintain shape.
- Braided tool loops on legs and waist for additional gear stowage and retrieval.
- Workseat attachment points at the waist compatible with CMC SkySaddle or similar.
- Lanyard parking loops with labels, flexible red braided sheath, and tear-away velcro.
- Multiple accessory attachment points allow stowing and organizing hardware & tools.
- Allows integration with various chest ascenders using CMC's Chest Ascender Kit.

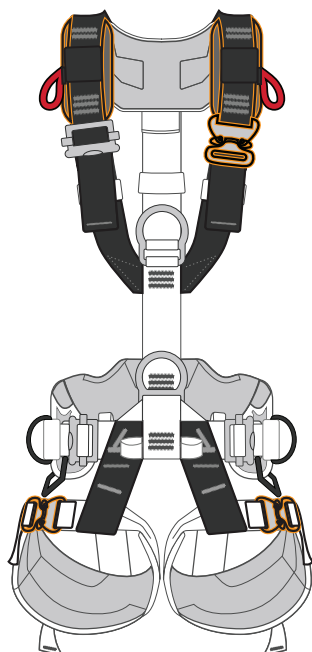

Size	Waist Circumference	Leg Loop Circumference
Small	66–81 cm (26–32 in)	51-91 cm (20-36 in)
Medium	81–107 cm (32–42 in)	51-91 cm (20-36 in)
Large	107–122 cm (42–48 in)	51-91 cm (20-36 in)

ATOM™ CE HARNESS
