

Your money. Your way.

We partner with BM Technologies, Inc. to deliver money we owe you from financial aid refunds, loans, and grants.

Securely log in to your school portal to get started with your refund preference. You'll also receive emailed step-by-step instructions.

Your electronic options¹ for receiving your refunds are:

Deposit to an Existing Account

Typically, it takes 1-2 business days for the receiving bank to credit the money to your account. Money is transferred to an existing account the same business day we receive the funds from your school.

Deposit to a BankMobile Checking Account

If you open a BankMobile Checking Account (upon identity verification), money is deposited the same business day we receive the funds from your school.

Deposit to a Prepaid Debit Card

If you choose to load your refund onto a prepaid debit card, you will be emailed a virtual card as soon as the same day we receive the funds from your school.²

¹ At some schools, paper check delivered by USPS is an option.

² Card issuer may impose certain identity or customer identification requirements prior to card issuance.
