Texas Risk and Authorization Management Program Certification

The information below is provided as a companion to the TX-RAMP Certification.

Cloud Service Name

Credenti: Unified Credenti Product Suite

Cloud Service Provider URL

https://credenti.com/products/

Cloud Service Description (200 words or less)

Credenti eliminates passwords and enforces phishing-resistant authentication across desktops, shared devices, legacy applications, and offline environments. The platform unifies identity verification, shared-device controls, and offline enforcement to harden every access point and reduce the attack surface enterprise-wide.

Certification Status

Level 2

Certificate Granted	Certification Expiration	Certificate ID
01/27/2026	01/26/2029	TX1815352
