

BlueSphere Cybersecurity for Credit Unions:

Protecting Trust, Simplifying Compliance

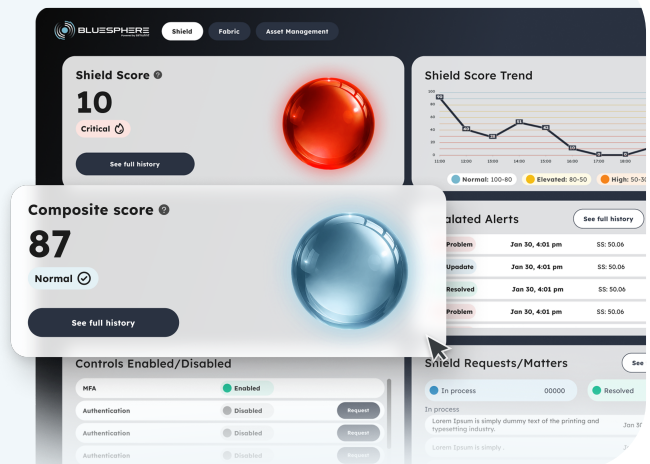

Every breach erodes trust and costs money. Simulint equips community and mid-market credit unions with enterprise-grade defense and examiner-ready governance, so you can keep members safe and confidence strong.

How Simulint's BlueSphere™ Platform Helps

Simulint delivers a co-managed or fully-managed unified, credit-union-ready platform that integrates 24x7 cyber defense, IT operations, and examiner-ready governance into a single platform.

BlueSphere Shield Managed Cyber Defense

- 24x7 SOC monitoring across endpoint, identity, email, cloud, and network.
- Threat hunting and intelligence tailored to CU-specific risks.
- Analyst-led incident handling and examiner notification support.
- Identity and email hardening plus security awareness training.

BlueSphere Fabric Managed IT Operations

- Patch and configuration management aligned to CIS baselines.
- Vulnerability and asset management with remediation SLAs.
- Backup, BC/DR operations with recovery testing and runbooks.
- Mobile/endpoint security and collaboration platform hardening.

GRC Compliance Score

42

High 

[See full history](#)

BlueSphere GRC Examiner-Ready Governance

- Controls mapped to NIST CSF 2.0, FFIEC/ACET, and GLBA.
- Vendor risk management, risk registers, and policy sets.
- “Exam Binder” reporting for boards and regulators.

By partnering with Simulint, credit unions gain

-  Always-on defense sized for lean IT/security teams.
-  Examiner confidence with pre-mapped controls and one-click evidence.
-  Reduced vendor sprawl: one portal, one SLA, one team.
-  Lower costs through predictable, member- aligned pricing.
-  Outcome-based operations: measurable KPIs (e.g., time-to-contain, patch compliance, phishing fail rates).
-  Education & community impact: co-branded board training, phishing campaigns, and mock-exams to raise security maturity.

Why Simulint?

Mission-driven:
leveling the playing
field for community
institutions.

Proven model: named
vCISO/vCTO,
30/60/90-day
maturity roadmap,
monthly ops reviews.

Transparent pricing
aligned to
member/device
counts.

Recognized partner
in advancing credit
union system
resilience.

Protect your members, your mission and your future.

Contact Simulint to learn how BlueSphere can help your credit union stay secure, examiner-ready, and future- proof.
