

Specialty Pharmacy Overview

A specialty pharmacy provides specialized services and medications designed to support the treatment of rare and complex disease states, such as cancer, Crohn's Disease, and pulmonary hypertension.

Beyond filling prescriptions, a specialty pharmacy offers a dedicated care team—including pharmacists and member support—who are experts in managing chronic and complex health conditions, helping members navigate their treatment journey with personalized support.

Specialty Pharmacy Partners

Under your prescription drug benefits plan, you may use two specialty pharmacy partners; Costco Specialty Pharmacy or Senderra.

Obtaining your Specialty Medications

A member can confirm if their medication is considered specialty by utilizing **Find My Meds** in the SmithRx Member Portal (smithrx.com/portal). Alternately, members can contact SmithRx customer support by online chat, email or phone. To get started, the prescriber (doctor) of your specialty medication will need to send your prescription to your preferred pharmacy. Read on to learn more about getting started with each pharmacy, refilling prescriptions and more.

We are here to help.
