## CERTIFICATION

### FDA HAZARD ANALYSIS AND CRITICAL CONTROL POINT PROGRAM AND RISK-BASED PLANT AND SUPPLY CHAIN PREVENTABLE CONTROLS PROGRAM

January 3, 2026

To Whom It May Concern:

The FDA HAZARD ANALYSIS AND CRITICAL CONTROL POINT (HACCP) program and the RISK-BASED PLANT AND SUPPLY CHAIN PREVENTABLES PROGRAM in operation at DERUOSI NUT COMPANY, ESCALON has been evaluated and found to be fully operational. A committee has been formed with a formalized meeting held annually to determine if changes are needed in the HACCP/PREVENTABLES program as constituted. One Critical Control Point has been determined and are presently documented by plant Quality Control and Operations personnel on all lots processed and shipped from the plant. Other control points are monitored on each lot as well through the production and shipping cycle.

The program is a well-organized, documented HACCP/PREVENTABLES program that is effective, functional and operational in every respect.

To this I attest and certify this 3<sup>rd</sup> day of January 2026

This certification is good for one year from the date of review and will need to be renewed prior to January 3, 2027.

Sincerely,

Duane Lindsay, BSc RS EHS PA DVA  
President/CEO, Technical Services
