

## Lot Code Translation

Every case of walnut kernels and every bag of in-shell that is packaged by DeRuosi Nut is given an 8 digit lot code when it passes inspection. A typical lot code would be as follows:

**6273 1003**

The first digit represents the year. **6** = 2026

Next 3 digits represent the day of the year 001 thru 365. **273** = **September 29, 2026**

Last 4 digits represent the order the product was packed starting with **1001** for In-shell and **5001** for Shelled. 1003 was the 3rd load of Inshell we packed this crop year.
