

Ferrbano furniture overview

Materials We Use

Wood – Our Core Material

We build with natural, solid wood—each piece selected for its grain, tone, and durability. Wood defines the tactile warmth and character of our furniture. Whether left untreated, lightly oiled, or gently stained, the natural integrity of the material remains visible.

Common wood types we use:

Oak – strength and rich texture

Walnut – elegant, dark, expressive

Ash – light-toned with a distinct, linear grain

Douglas Fir – warm, rustic, light

We believe wood should age gracefully, adding patina and story over time.

Collections

Our portfolio is divided into three curated lines:

- Loft – Minimalist silhouettes in steel and wood for modern interiors
- Craft – A celebration of traditional joinery and raw materials
- Garden – Durable, elemental pieces designed for outdoor life
