Tradable Bonus 30% — Terms and Conditions

1. Purpose of the Tradable Bonus

1.1 The purpose of the Tradable Bonus is to give active traders more buying power and the ability to hold bigger drawdowns. The Client receives 30% extra on every qualifying deposit, and the whole bonus can absorb losses like the Client's own funds.

1.2 The Tradable Bonus is designed for more aggressive, active traders. It is intended solely to support genuine trading and is not intended to provide guaranteed, risk-free or arbitrage profit. The campaign runs until 31 December 2026.

2. Benefits of the Tradable Bonus

The Tradable Bonus provides the following benefits to the Client:

2.1 **More buying power.** 30% extra on every deposit of USD 100 or more, up to USD 3,000 per Client, so the Client can open and hold larger positions.

2.2 **Hold bigger drawdowns.** Unlike a standard bonus, the whole Tradable Bonus (100%) can absorb losses, just like the Client's own money – so the Client's positions can stay open through deeper drawdowns before Stop Out.

2.3 **Built for active traders.** The Client receives the bonus on every qualifying deposit during the campaign, up to the maximum.

2.4 **Profits are yours.** All profits are credited to the Client's Cash Balance and are withdrawable at any time.

2.5 **Negative Balance Protection.** All Clients are protected from a negative balance. The Client will never owe the Company money if trading is unsuccessful (see clause 8.5).

2.6 **Example.** The Client deposits USD 10,000 and activates the Tradable Bonus: the Client receives USD 3,000 (the maximum), so Equity is USD 13,000.

- If trading goes against the Client, the Client's own USD 10,000 is used first.
- After that, the full USD 3,000 bonus keeps working for the Client and can absorb further losses.
- The positions stay open until normal Stop Out (50% Margin Level), calculated on total Equity of own funds plus bonus. Any bonus left after a Stop Out is removed.
- Deposits above USD 10,000 do not increase the bonus beyond the maximum. Smaller deposits work the same way – for example, USD 1,000 gives a USD 300 bonus, all of which can absorb losses.

3. Good to Know

3.1 **Standard accounts only.** All bonuses of the Company are available on Standard accounts only.

3.2 **One bonus promotion per Client.** The Client can take part in only one bonus promotion – Welcome Bonus $100, Deposit Bonus 100% or Tradable Bonus 30% – so the Client should choose the one that best suits their trading style. The Client can still take part in all of the Company's loyalty programmes.

3.3 **The bonus supports trading.** The Bonus Credit is not withdrawable, transferable or convertible into cash – it is there to support the Client's trading.

Born2trade is a trade name of Born2Trade Ltd, an international business company incorporated in Saint Lucia under Company No. 2025-00375, with its registered office at Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia. Born2Trade Ltd is not licensed or regulated by any financial services regulatory authority.

3.4 **Your own funds come first.** Losses are taken from the Client's own funds first and then from the bonus. Keeping losing positions open longer means the Client can lose the whole deposit – but never more, thanks to Negative Balance Protection.

3.5 **Withdrawing is simple.** The Client can withdraw funds and profits at any time. When the Client initiates a withdrawal or internal transfer, the active Bonus Credit is removed automatically at that moment – the Client's own funds and profits are not affected. If the Client has open positions, the Client should check the margin before withdrawing, as removing the Bonus Credit lowers Equity. A Stop Out also ends the bonus.

3.6 **Campaign end.** All Tradable Bonuses end on 31 December 2026.

3.7 **Which bonus is right for you?**

Welcome Bonus $100	**For new traders.** Start with only USD 50 and trade with USD 150 – the easiest way to test our trading conditions with a small deposit.
Deposit Bonus 100%	**For more conservative traders.** Double your first deposit (up to USD 5,000) for more buying power, and earn the bonus as withdrawable cash – USD 1 for every Standard Lot traded, like cashback per lot. The bonus does not absorb losses.
Tradable Bonus 30%	**For more aggressive, active traders.** 30% extra on every deposit (up to USD 3,000) that is fully losable – the whole bonus can absorb losses like your own funds, so you can hold bigger drawdowns. Not convertible to cash; valid until 31 December 2026.

4. Acceptance

4.1 By accepting the Tradable Bonus, the Client confirms acceptance of these Terms, the Client Agreement, the Risk Disclosure and the Company's AML/KYC policies. These Terms form part of the Client Agreement, which applies to all matters not covered here; for matters expressly addressed in these Terms, these Terms prevail.

5. Definitions

"Client" means a natural person who has opened a live trading account with the Company and successfully completed KYC verification.

"Tradable Bonus" means the trading credit equal to 30% of each Qualifying Deposit granted under these Terms.

"Qualifying Deposit" means each settled external deposit of at least USD 100 (or equivalent) into an Eligible Account during the Campaign Period for which the Client activates the Tradable Bonus.

"Eligible Account" means a Standard live trading account opened by the Client with the Company.

"Cash Balance" means the Client's own deposited funds and realised profits, excluding any Bonus Credit.

"Bonus Credit" means the trading credit granted under these Terms, shown as "Credit" in MetaTrader 5 and recorded separately from the Cash Balance.

"Equity" means the sum of the Cash Balance and the Bonus Credit, plus or minus the floating profit or loss of open positions in the Eligible Account.

"Own Funds" means the part of Equity that exceeds the Bonus Credit.

Born2trade is a trade name of Born2Trade Ltd, an international business company incorporated in Saint Lucia under Company No. 2025-00375, with its registered office at Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia. Born2Trade Ltd is not licensed or regulated by any financial services regulatory authority.

"Stop Out" means the automatic closure of open positions by the trading platform when the Margin Level of the Eligible Account reaches the applicable Stop Out level (50% for Standard accounts, as set out in the Trading Specifications).

"Campaign Period" means the period from publication of these Terms until 23:59 server time on 31 December 2026.

"Standard Lot" means one (1) standard lot of the relevant instrument as defined in the Trading Specifications published on the Company's website and shown in MetaTrader 5.

"Linked Accounts" has the meaning given in the Client Agreement.

6. Eligibility

6.1 The Tradable Bonus is available to Clients who are at least 18 years of age and have successfully completed KYC verification.

6.2 The Tradable Bonus cannot be combined with the Welcome Bonus $100 or the Deposit Bonus 100%.

6.3 The Company applies deduplication checks across KYC data, contact details, IP address, device, payment method and household. Duplicate or coordinated participation through Linked Accounts will result in cancellation of the Bonus Credit and of any profit made with it.

7. The Tradable Bonus Credit

7.1 The Tradable Bonus is credited as Bonus Credit at the Client's request in the Client Area, in the amount of 30% of each Qualifying Deposit.

7.2 The maximum active Bonus Credit is USD 3,000 (or equivalent) per Client across all accounts and Linked Accounts. Deposits that would take the Bonus Credit above this maximum do not increase it further.

8. Trading, Losses, Profits and Negative Balance Protection

8.1 **Tradable bonus.** The Bonus Credit is added to Equity and Free Margin and can be used for trading. Losses are always taken from the Client's Own Funds first. After the Client's Own Funds are used up, the Bonus Credit can absorb further losses of up to 100% of its amount.

8.2 **Margin requirements.** Margin requirements and the Stop Out level of the Eligible Account are calculated on Equity including the Bonus Credit. Any Bonus Credit remaining after a Stop Out is removed.

8.3 **Not convertible.** The Bonus Credit is not withdrawable, transferable or convertible into cash or balance under any circumstances, regardless of trading volume.

8.4 **Profits.** Profit from trading is credited to the Cash Balance, belongs to the Client and is withdrawable in accordance with the Company's normal withdrawal policy. Profits may only be cancelled where they result from conduct prohibited under clause 11.

8.5 **Negative Balance Protection.** All Clients are protected from a negative balance. Where the balance of the Eligible Account becomes negative as a result of trading losses, a Stop Out or the removal of the Bonus Credit, the Company resets the balance to zero, and the Client does not owe the Company any amount.

8.6 Negative Balance Protection is provided for genuine trading. Where a negative balance results from conduct prohibited under clause 11, the Company may set it off against other accounts of the Client or Linked Accounts, as provided in the Client Agreement.

9. Withdrawals and Cancellation

9.1 **Withdrawals.** The Client may withdraw funds and profits at any time. When the Client initiates a withdrawal or internal transfer from the Eligible Account, the whole active Bonus Credit is removed automatically when the request is submitted. The Client's own funds and profits are not affected. Before withdrawing, the Client should check that removal of the Bonus Credit will not cause a Stop Out of open positions.

9.2 The whole active Bonus Credit is also cancelled and not restored where:

(a)a Stop Out occurs on the Eligible Account;

(b)a deposit is reversed, charged back or found to be third-party or non-compliant;

(c)KYC/AML requirements are not met;

(d)the account is closed; or

(e)the Client breaches these Terms or the Client Agreement.

10. Campaign End

10.1 The campaign ends on 31 December 2026. No Bonus Credit is granted on deposits made after that date, and every active Bonus Credit ends and is removed automatically at 23:59 server time on 31 December 2026.

11. Prohibited Conduct

11.1 The Tradable Bonus is intended to support genuine trading. The Client must not engage in: multiple or Linked Accounts; hedging or offsetting positions between the Client's accounts, between Clients or through Linked Accounts; latency, statistical or price arbitrage; news-gap or platform exploitation; abuse of Negative Balance Protection; chargeback abuse; VPN or proxy misrepresentation; false documents; or any other abusive trading under Section 11 of the Client Agreement.

11.2 Where the Company, acting reasonably, identifies any such conduct, it may cancel the Bonus Credit and any profit resulting from it, disqualify Linked Accounts and reverse related partner remuneration. On request, the Company will explain the grounds of its decision, and the Client may challenge it under the Complaints Handling Policy.

12. Partner Remuneration

12.1 Partners receive their normal remuneration under the Partner Agreement for trading by Clients who use the Tradable Bonus. Partner remuneration may be withheld or reversed only where it relates to abusive trading or a breach of these Terms or the Client Agreement.

13. General

13.1 **Property of the Company.** The Bonus Credit remains the property of the Company. The Company may reduce or remove it, in whole or in part, at any time and without prior notice, where it believes that a Client or a group of Clients is using it to abuse the Company rather than for genuine trading, or where the Company considers it necessary for economic or commercial reasons. Profits already credited to the Cash Balance and Negative Balance Protection are not affected.

13.2 **Loyalty programmes.** Participation in the Tradable Bonus does not prevent the Client from taking part in any of the Company's loyalty programmes, subject to their own terms.

13.3 The Client may opt out of the Tradable Bonus at any time via the Client Area or the Company's support service, in which case the Bonus Credit is removed.

Born2trade is a trade name of Born2Trade Ltd, an international business company incorporated in Saint Lucia under Company No. 2025-00375, with its registered office at Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia. Born2Trade Ltd is not licensed or regulated by any financial services regulatory authority.

13.4 The Company may change or end this promotion by publishing notice on its website. A Bonus Credit already granted continues under the terms in force when it was granted, unless a change is needed to stop abuse or comply with law.

13.5 In case of inconsistency between the English version of these Terms and any translation, the English version prevails.

13.6 These Terms are governed by the laws of Saint Lucia.
