Welcome Bonus $100 — Terms and Conditions

1. Purpose of the Welcome Bonus

1.1 The purpose of the Welcome Bonus is to make it easier for beginners to start trading. It allows new Clients to start with a small deposit, to learn and test trading in real market conditions, and to test the Company's trading conditions and execution quality without committing significant funds upfront.

1.2 The Welcome Bonus is intended solely to support genuine trading by new Clients. It is not intended to provide guaranteed, risk-free or arbitrage profit.

2. Benefits of the Welcome Bonus

The Welcome Bonus provides the following benefits to the Client:

2.1 **Start small, trade bigger.** The Client deposits from USD 50 and trades with USD 150 – three times the deposit.

2.2 **Increased buying power.** The Bonus Credit is added to the Client's Equity and Free Margin, increasing the trading capacity available to the Client beyond the Client's own deposit.

2.3 **Flexibility to try different instruments.** The additional trading capacity gives the Client more flexibility to try different instruments available on the Standard account and to get to know the Company's services.

2.4 **Stop Out cushion.** As the Bonus Credit forms part of Equity, it keeps the Margin Level higher, so the Client's positions can stay open longer – until the Client's Own Funds have been used up (see clause 8.2).

2.5 **Profits are yours.** All profits are credited to the Client's Cash Balance and are withdrawable at any time.

2.6 **Negative Balance Protection.** All Clients are protected from a negative balance. The Client will never owe the Company money if trading is unsuccessful (see clause 8.5).

2.7 **Example.** The Client deposits USD 50 and activates the Welcome Bonus: the Client receives USD 100, so Equity is USD 150. The Client opens positions using USD 40 of margin.

- Without the bonus, Stop Out (50% Margin Level on Standard accounts) would come when Equity falls to USD 20.
- With the bonus, the positions can stay open until Equity falls to USD 100 – that is, until the Client's own USD 50 has been used. The Bonus Credit may then be removed and the positions closed.

- If the Client makes a profit of, say, USD 80, it belongs to the Client. When the Client initiates a withdrawal, the Bonus Credit is removed automatically and the profit is paid out as normal.

3. Good to Know

3.1 **Standard accounts only.** All bonuses of the Company are available on Standard accounts only.

3.2 **One bonus promotion per Client.** The Client can take part in only one bonus promotion – Welcome Bonus $100, Deposit Bonus 100% or Tradable Bonus 30% – so the Client should choose the one that best suits their trading style. The Client can still take part in all of the Company's loyalty programmes.

3.3 **Your own funds come first.** Losses are always taken from the Client's own funds first. Keeping a losing position open longer means the Client can lose the whole deposit – but never more, thanks to Negative Balance Protection.

3.4 **The bonus supports trading.** The USD 100 Bonus Credit itself cannot be withdrawn or converted into cash.

3.5 **Withdrawing is simple.** The Client can withdraw funds and profits at any time. When the Client initiates a withdrawal or internal transfer, the active Bonus Credit is removed automatically at that moment – the Client's own funds and profits are not affected. If the Client has open positions, the Client should check the margin before withdrawing, as removing the Bonus Credit lowers Equity. A Stop Out also ends the bonus.

3.6 **Which bonus is right for you?**

Welcome Bonus $100	**For new traders.** Start with only USD 50 and trade with USD 150 – the easiest way to test our trading conditions with a small deposit.
Deposit Bonus 100%	**For more conservative traders.** Double your first deposit (up to USD 5,000) for more buying power, and earn the bonus as withdrawable cash – USD 1 for every Standard Lot traded, like cashback per lot. The bonus does not absorb losses.
Tradable Bonus 30%	**For more aggressive, active traders.** 30% extra on every deposit (up to USD 3,000) that is fully losable – the whole bonus can absorb losses like your own funds, so you can hold bigger drawdowns. Not convertible to cash; valid until 31 December 2026.

4. Acceptance

4.1 By accepting the Welcome Bonus, the Client confirms acceptance of these Terms, the Client Agreement, the Risk Disclosure and the Company's AML/KYC policies. These Terms form part of the Client Agreement, which applies to all matters not covered here; for matters expressly addressed in these Terms, these Terms prevail.

5. Definitions

"Client" means a natural person who has opened a live trading account with the Company and successfully completed KYC verification.

© Born2Trade Ltd. Registered in Saint Lucia (No. 2025-00375)
Registered office: Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia.

"Welcome Bonus" means the non-cashable trading credit of USD 100 granted under these Terms.

"Qualifying Deposit" means the Client's first external deposit of at least USD 50 (or equivalent) into an Eligible Account.

"Eligible Account" means a Standard live trading account opened by the Client with the Company.

"Cash Balance" means the Client's own deposited funds and realised profits, excluding any Bonus Credit.

"Bonus Credit" means the trading credit granted under these Terms, shown as "Credit" in MetaTrader 5 and recorded separately from the Cash Balance.

"Equity" means the sum of the Cash Balance and the Bonus Credit, plus or minus the floating profit or loss of open positions in the Eligible Account.

"Own Funds" means the part of Equity that exceeds the Bonus Credit; the Client's Own Funds are used up when Equity falls to the amount of the Bonus Credit.

"Stop Out" means the automatic closure of open positions by the trading platform when the Margin Level of the Eligible Account reaches the applicable Stop Out level (50% for Standard accounts, as set out in the Trading Specifications).

"Bonus Period" means the period of 30 calendar days from activation of the Welcome Bonus.

"Standard Lot" means one (1) standard lot of the relevant instrument as defined in the Trading Specifications published on the Company's website and shown in MetaTrader 5.

"Linked Accounts" has the meaning given in the Client Agreement.

6. Eligibility

6.1 The Welcome Bonus is available exclusively to new Clients who have not previously received a Welcome Bonus from the Company, are at least 18 years of age, have successfully completed KYC verification and have made a Qualifying Deposit.

6.2 Only one (1) Welcome Bonus is available per Client, and the Bonus Credit is limited to a single Eligible Account. The Welcome Bonus cannot be combined with the Deposit Bonus 100% or the Tradable Bonus 30%.

6.3 The Company applies deduplication checks across KYC data, name, email, phone number, IP address, device, residential address, payment method and household. Duplicate or coordinated participation through Linked Accounts will result in cancellation of the Bonus Credit and of any profit made with it.

7. The Welcome Bonus Credit

7.1 Upon a Qualifying Deposit being credited to the Eligible Account of a verified Client, the Company credits the Welcome Bonus as Bonus Credit. The Bonus Credit increases the Client's Equity

Registered office: Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia.

and Free Margin for trading purposes only and is not withdrawable, transferable or convertible into cash.

7.2 Any deposit method available in the Client Area may be used, subject to the Company's AML, source-of-funds and payment ownership checks. Third-party deposits are not accepted.

7.3 The Bonus Credit is valid for the Bonus Period. At the end of the Bonus Period any remaining Bonus Credit is removed automatically; profits already credited to the Cash Balance are not affected.

8. Trading, Losses, Profits and Negative Balance Protection

8.1 **Order of losses.** The Bonus Credit forms part of Equity. Trading losses are always deducted from the Client's Own Funds first.

8.2 **Bonus removal in case of losses.** Once Equity falls to or below the amount of the Bonus Credit (meaning the Client's Own Funds have been used up), the Company may reduce or remove the Bonus Credit at any time without prior notice. Such removal reduces Equity and Margin Level and may result in the closure of open positions (Stop Out).

8.3 **Margin requirements.** Standard margin requirements and the Stop Out level of the Eligible Account continue to apply and are calculated on Equity including the Bonus Credit.

8.4 **Profits.** Profit from trading, whether made with Own Funds, the Bonus Credit or both, is credited to the Cash Balance, belongs to the Client and is withdrawable in accordance with the Company's normal withdrawal policy. Profits may only be cancelled where they result from conduct prohibited under clause 10.

8.5 **Negative Balance Protection.** All Clients are protected from a negative balance. Where the balance of the Eligible Account becomes negative as a result of trading losses, a Stop Out or the removal of the Bonus Credit, the Company resets the balance to zero, and the Client does not owe the Company any amount.

8.6 Negative Balance Protection is provided for genuine trading. Where a negative balance results from conduct prohibited under clause 10, the Company may set it off against other accounts of the Client or Linked Accounts, as provided in the Client Agreement.

9. Withdrawals and Cancellation

9.1 **Withdrawals.** The Client may withdraw funds and profits at any time. When the Client initiates a withdrawal or internal transfer from the Eligible Account, the Bonus Credit is removed automatically when the request is submitted. The Client's own funds and profits are not affected. Before withdrawing, the Client should check that removal of the Bonus Credit will not cause a Stop Out of open positions.

9.2 The Bonus Credit is also cancelled and not restored where:

(a) a Stop Out occurs on the Eligible Account;
(b) Equity falls to or below the Bonus Credit, and the Company removes it under clause 8.2;

© Born2Trade Ltd. Registered in Saint Lucia (No. 2025-00375)
Registered office: Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia.

(c) the Qualifying Deposit is reversed, charged back or found to be third-party or non-compliant;
(d) KYC/AML requirements are not met;
(e) the account is closed;
(f) the Bonus Period ends; or
(g) the Client breaches these Terms or the Client Agreement.

10. Prohibited Conduct

10.1 The Welcome Bonus is intended to support genuine trading. The Client must not engage in: multiple or Linked Accounts; hedging or offsetting positions between the Client's accounts, between Clients or through Linked Accounts; latency, statistical or price arbitrage; news-gap or platform exploitation; abuse of Negative Balance Protection; chargeback abuse; VPN or proxy misrepresentation; false documents; automated or copy-trading systems generating artificial volume; or any other abusive trading under Section 11 of the Client Agreement.

10.2 Where the Company, acting reasonably, identifies any such conduct, it may cancel the Bonus Credit and any profit resulting from it, disqualify Linked Accounts and reverse related partner remuneration. On request, the Company will explain the grounds of its decision, and the Client may challenge it under the Complaints Handling Policy.

11. Partner Remuneration

11.1 Partners receive their normal remuneration under the Partner Agreement for trading by Clients who use the Welcome Bonus. Partner remuneration may be withheld or reversed only where it relates to abusive trading or a breach of these Terms or the Client Agreement.

12. General

12.1 **Property of the Company.** The Bonus Credit remains the property of the Company. The Company may reduce or remove it, in whole or in part, at any time and without prior notice, where it believes that a Client or a group of Clients is using it to abuse the Company rather than for genuine trading, or where the Company considers it necessary for economic or commercial reasons. Profits already credited to the Cash Balance and Negative Balance Protection are not affected.

12.2 **Loyalty programmes.** Participation in the Welcome Bonus does not prevent the Client from taking part in any of the Company's loyalty programmes, subject to their own terms.

12.3 The Client may opt out of the Welcome Bonus at any time via the Client Area or the Company's support service, in which case the Bonus Credit is removed.

12.4 The Company may change or end this promotion by publishing notice on its website. A Bonus Credit already granted continues under the terms in force when it was granted, unless a change is needed to stop abuse or comply with law.

12.5 In case of inconsistency between the English version of these Terms and any translation, the English version prevails.
