Deposit Bonus 100% — Terms and Conditions

1. Purpose of the Deposit Bonus

1.1 The purpose of the Deposit Bonus is to increase the Client's buying power and to reward active trading. The Client's first deposit is matched 100%, and the Client can turn the bonus into withdrawable cash by trading – USD 1 for every Standard Lot traded, like cashback per lot.

1.2 The Deposit Bonus is designed for more conservative traders who want more buying power together with the benefit of cashback per lot. It is intended solely to support genuine trading and is not intended to provide guaranteed, risk-free or arbitrage profit.

2. Benefits of the Deposit Bonus

The Deposit Bonus provides the following benefits to the Client:

2.1 **Double buying power.** The Client's first deposit is matched 100%, up to USD 5,000, so the Client can open and hold larger positions.

2.2 **Earn the bonus as cash.** Every Standard Lot traded earns USD 1 towards releasing the bonus. Once released, the full bonus is transferred to the Client's Cash Balance and is withdrawable.

2.3 **Stop Out cushion.** As the Bonus Credit forms part of Equity, it keeps the Margin Level higher, so the Client's positions can stay open longer – until the Client's Own Funds have been used up (see clause 9.2).

2.4 **Plenty of time.** The Client has 360 days to trade the required volume.

2.5 **Profits are yours.** All profits are credited to the Client's Cash Balance and are withdrawable at any time.

2.6 **Negative Balance Protection.** All Clients are protected from a negative balance. The Client will never owe the Company money if trading is unsuccessful (see clause 9.5).

2.7 **Example.** The Client deposits USD 5,000 and activates the Deposit Bonus: the Client receives USD 5,000, so Equity is USD 10,000. The Client opens positions using USD 2,000 of margin.

- Without the bonus, Stop Out (50% Margin Level on Standard accounts) would come when Equity falls to USD 1,000.
- With the bonus, the positions can stay open until Equity falls to USD 5,000 – that is, until the Client's own USD 5,000 has been used. The Bonus Credit may then be removed and the positions closed.
- Turning the bonus into cash: each Standard Lot traded earns USD 1. After 5,000 Standard Lots within 360 days, the full USD 5,000 is released to the Cash Balance and becomes withdrawable cash.

- Profits are credited to the Cash Balance and belong to the Client at any time.

3. Good to Know

3.1 **Standard accounts only.** All bonuses of the Company are available on Standard accounts only.

3.2 **One bonus promotion per Client.** The Client can take part in only one bonus promotion – Welcome Bonus $100, Deposit Bonus 100% or Tradable Bonus 30% – so the Client should choose the one that best suits their trading style. The Client can still take part in all of the Company's loyalty programmes.

3.3 **The bonus is not tradable.** The Bonus Credit does not absorb losses. Losses are always taken from the Client's own funds first. Keeping a losing position open longer means the Client can lose the whole deposit – but never more, thanks to Negative Balance Protection.

3.4 **Released in full.** The bonus is released in full once the whole lot requirement is completed. The Client can follow the progress in the Client Area.

3.5 **Withdrawing is simple.** The Client can withdraw funds and profits at any time. When the Client initiates a withdrawal or internal transfer, the active Bonus Credit (any part not yet released) is removed automatically at that moment – the Client's own funds and profits are not affected. If the Client has open positions, the Client should check the margin before withdrawing, as removing the Bonus Credit lowers Equity. A Stop Out also ends the bonus.

3.6 **Which bonus is right for you?**

Welcome Bonus $100	**For new traders.** Start with only USD 50 and trade with USD 150 – the easiest way to test our trading conditions with a small deposit.
Deposit Bonus 100%	**For more conservative traders.** Double your first deposit (up to USD 5,000) for more buying power, and earn the bonus as withdrawable cash – USD 1 for every Standard Lot traded, like cashback per lot. The bonus does not absorb losses.
Tradable Bonus 30%	**For more aggressive, active traders.** 30% extra on every deposit (up to USD 3,000) that is fully losable – the whole bonus can absorb losses like your own funds, so you can hold bigger drawdowns. Not convertible to cash; valid until 31 December 2026.

4. Acceptance

4.1 By accepting the Deposit Bonus, the Client confirms acceptance of these Terms, the Client Agreement, the Risk Disclosure and the Company's AML/KYC policies. These Terms form part of the Client Agreement, which applies to all matters not covered here; for matters expressly addressed in these Terms, these Terms prevail.

5. Definitions

"Client" means a natural person who has opened a live trading account with the Company and successfully completed KYC verification.

© Born2Trade Ltd. Registered in Saint Lucia (No. 2025-00375)
Registered office: Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia.

"Deposit Bonus" means the trading credit equal to 100% of the Qualifying Deposit, up to USD 5,000, granted under these Terms.

"Qualifying Deposit" means the Client's first settled external deposit into an Eligible Account for which the Client activates the Deposit Bonus. Transfers, rebates, cashback, partner commissions, balance corrections and other promotional credits are not Qualifying Deposits.

"Eligible Account" means a Standard live trading account opened by the Client with the Company.

"Cash Balance" means the Client's own deposited funds and realised profits, excluding any Bonus Credit.

"Bonus Credit" means the trading credit granted under these Terms, shown as "Credit" in MetaTrader 5 and recorded separately from the Cash Balance.

"Equity" means the sum of the Cash Balance and the Bonus Credit, plus or minus the floating profit or loss of open positions in the Eligible Account.

"Own Funds" means the part of Equity that exceeds the Bonus Credit; the Client's Own Funds are used up when Equity falls to the amount of the Bonus Credit.

"Standard Lot" means one (1) standard lot of the relevant instrument as defined in the Trading Specifications published on the Company's website and shown in MetaTrader 5.

"Required Trading Volume" means one (1) Standard Lot for every USD 1 of Bonus Credit.

"Bonus Participation Period" means the period of 360 calendar days from activation of the Deposit Bonus.

"Stop Out" means the automatic closure of open positions by the trading platform when the Margin Level of the Eligible Account reaches the applicable Stop Out level (50% for Standard accounts, as set out in the Trading Specifications).

"Linked Accounts" has the meaning given in the Client Agreement.

6. Eligibility

6.1 The Deposit Bonus is available to Clients who are at least 18 years of age and have successfully completed KYC verification.

6.2 Only one (1) Deposit Bonus is available per Client, on the first deposit only, and the Bonus Credit is limited to a single Eligible Account. The Deposit Bonus cannot be combined with the Welcome Bonus $100 or the Tradable Bonus 30%.

6.3 The Company applies deduplication checks across KYC data, name, email, phone number, IP address, device, residential address, payment method and household. Duplicate or coordinated participation through Linked Accounts will result in cancellation of the Bonus Credit and of any profit made with it.

7. The Deposit Bonus Credit

7.1 The Deposit Bonus is credited as Bonus Credit at the Client's request in the Client Area; it is not credited automatically. The maximum Bonus Credit is USD 5,000 (or equivalent) per Client across all accounts and Linked Accounts.

7.2 Until released under clause 8, the Bonus Credit increases the Client's Equity and Free Margin for trading purposes only and is not withdrawable, transferable or convertible into cash.

7.3 The Bonus Credit may be used for the Bonus Participation Period. Any unreleased Bonus Credit is removed automatically at the end of that period; profits and released Bonus already credited to the Cash Balance are not affected.

8. Release of the Bonus

8.1 The Bonus Credit is released once the Required Trading Volume is completed: each Standard Lot of eligible round-turn volume earns USD 1 towards release (for example, a USD 5,000 Bonus Credit requires 5,000 Standard Lots). The released Bonus is transferred to the Cash Balance and is withdrawable.

8.2 Only closed round-turn trades on eligible instruments listed on the promotion page (including foreign exchange pairs and precious-metal CFDs), held open for at least 180 consecutive seconds, count towards the Required Trading Volume. Hedged or offsetting positions (including across the Client's accounts or Linked Accounts) do not count.

8.3 The Company calculates the Required Trading Volume from its server records, which are binding in the absence of manifest error. No partial release is available unless the Company decides otherwise.

9. Trading, Losses, Profits and Negative Balance Protection

9.1 **Order of losses.** The Bonus Credit forms part of Equity but does not absorb losses. Trading losses are always deducted from the Client's Own Funds first.

9.2 **Bonus removal in case of losses.** Once Equity falls to or below the amount of the unreleased Bonus Credit (meaning the Client's Own Funds have been used up), the Company may reduce or remove the Bonus Credit at any time without prior notice. Such removal reduces Equity and Margin Level and may result in the closure of open positions (Stop Out).

9.3 **Margin requirements.** Standard margin requirements and the Stop Out level of the Eligible Account continue to apply and are calculated on Equity including the Bonus Credit.

9.4 **Profits.** Profit from trading is credited to the Cash Balance, belongs to the Client and is withdrawable in accordance with the Company's normal withdrawal policy. Profits may only be cancelled where they result from conduct prohibited under clause 11.

9.5 **Negative Balance Protection.** All Clients are protected from a negative balance. Where the balance of the Eligible Account becomes negative as a result of trading losses, a Stop Out or

Registered office: Ground Floor, The Sotheby Building, Rodney Village, Rodney Bay, Gros-Islet, Saint Lucia.

the removal of the Bonus Credit, the Company resets the balance to zero, and the Client does not owe the Company any amount.

9.6 Negative Balance Protection is provided for genuine trading. Where a negative balance results from conduct prohibited under clause 11, the Company may set it off against other accounts of the Client or Linked Accounts, as provided in the Client Agreement.

10. Withdrawals and Cancellation

10.1 **Withdrawals.** The Client may withdraw funds and profits at any time. When the Client initiates a withdrawal or internal transfer from the Eligible Account before full release, the unreleased Bonus Credit is removed automatically when the request is submitted. The Client's own funds, profits and any released Bonus are not affected. Before withdrawing, the Client should check that removal of the Bonus Credit will not cause a Stop Out of open positions.

10.2 Unreleased Bonus Credit is also cancelled and not restored where:

(a) a Stop Out occurs on the Eligible Account;
(b) Equity falls to or below the unreleased Bonus Credit, and the Company removes it under clause 9.2;
(c) the Qualifying Deposit is reversed, charged back or found to be third-party or non-compliant;
(d) KYC/AML requirements are not met;
(e) the account is closed;
(f) the Bonus Participation Period ends; or
(g) the Client breaches these Terms or the Client Agreement.

10.3 Bonus already released to the Cash Balance is not affected by cancellation.

11. Prohibited Conduct

11.1 The Deposit Bonus is intended to support genuine trading. The Client must not engage in: multiple or Linked Accounts; hedging or offsetting positions between the Client's accounts, between Clients or through Linked Accounts; latency, statistical or price arbitrage; automated or copy-trading systems generating artificial volume; news-gap or platform exploitation; abuse of Negative Balance Protection; chargeback or payment abuse; VPN or proxy misrepresentation; false documents; or any other abusive trading under Section 11 of the Client Agreement.

11.2 Where the Company, acting reasonably, identifies any such conduct, it may cancel the Bonus Credit and any profit resulting from it, exclude the related volume, disqualify Linked Accounts and reverse related partner remuneration. On request, the Company will explain the grounds of its decision, and the Client may challenge it under the Complaints Handling Policy.

12. Partner Remuneration

12.1 Partners receive their normal remuneration under the Partner Agreement for trading by Clients who use the Deposit Bonus. Partner remuneration may be withheld or reversed only where it relates to abusive trading or a breach of these Terms or the Client Agreement.

13. General

13.1 **Property of the Company.** Until released to the Cash Balance, the Bonus Credit remains the property of the Company. The Company may reduce or remove it, in whole or in part, at any time and without prior notice, where it believes that a Client or a group of Clients is using it to abuse the Company rather than for genuine trading, or where the Company considers it necessary for economic or commercial reasons. Profits and released Bonus already credited to the Cash Balance and Negative Balance Protection are not affected.

13.2 **Loyalty programmes.** Participation in the Deposit Bonus does not prevent the Client from taking part in any of the Company's loyalty programmes, subject to their own terms.

13.3 The Client may opt out of the Deposit Bonus at any time via the Client Area or the Company's support service, in which case the unreleased Bonus Credit is removed.

13.4 The Company may change or end this promotion by publishing notice on its website. A Bonus Credit already granted, and volume already completed, will be honoured under the terms in force when the Bonus Credit was granted, unless a change is needed to stop abuse or comply with law.

13.5 In case of inconsistency between the English version of these Terms and any translation, the English version prevails.

13.6 These Terms are governed by the laws of Saint Lucia.
