

AMANA RETREATS

ABOUT US

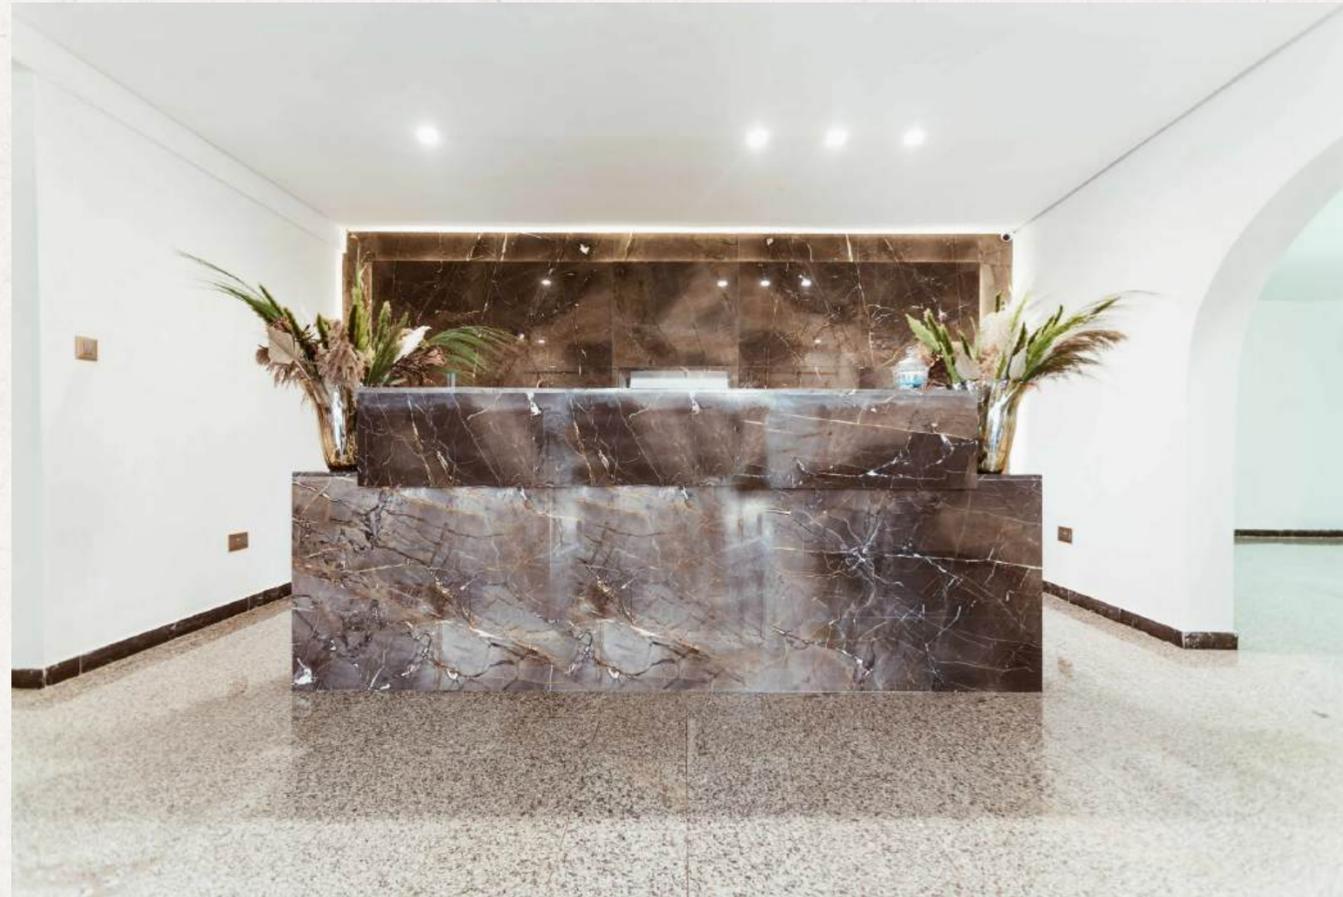

Amana Retreats is a women-only sanctuary created to offer women a restorative, and empowering space for healing, rest, community, and transformation.

We seek to give women the space and home to indulge in activities that are exciting to their senses. Through our offerings, we want to inspire the Amana woman to reach in deeper into her self, unearthing, discovering and embracing each new layer as a journey.

So we invite you to experience yourself with a new, different perspective. To make these moments extraordinary, to find the joys in being there for yourself. To Meet yourself!

OUR FOUR PILLARS

- Achieving a state of emotional, mental and physical balance whilst having fun.
- We believe in sharing experiences and creating an aligned/connected community.
- We believe that real beauty comes from the core and approach it from a holistic point, where fresh organic nutrition, natural spa therapies and mindfulness work in harmony to achieve a well-rounded physical and emotional inner beauty.
- To create a unique environment offering organic and sustainable solutions to support our members' ever so busy and modern lifestyles.
