

LIFT & SLIDE

DURABUILT
WINDOWS & DOORS

EFFORTLESS
BY DESIGN.

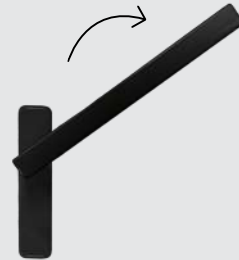

LIFT & SLIDE

WHEN INDOOR COMFORT MEETS OUTDOOR LIVING

Lift & Slide technology raises the door panel off the track for smooth, effortless operation, even with large glass panels. When closed, it lowers to seal tightly for comfort, performance, and security.

Handle up.
Door rests on the track.

Turn the handle.
Door lifts.

Handle fully turned.
Door slides open or closed.

MODERN ARCHITECTURAL DESIGN

Minimal frame sightlines:

Large glazed surfaces maximize natural light and create uninterrupted views.

Welded sash corners:

Clean, refined appearance with improved durability and structural integrity.

Premium European handle:

High-quality HOPPE® handle with a contemporary design and integrated security features.

EFFORTLESS OPERATION

True lift & slide operation:

The panel lifts off the track for effortless opening and closing, even with large, heavy glass panels.

Advanced hardware system:

Engineered components deliver smooth handling and a solid, confident feel.

Built-in security:

When closed, the sash drops firmly into place, making it difficult to lift or force open.

Heavy-duty rollers:

Reinforced bogie wheels distribute weight evenly for smooth, consistent movement.

CONFIDENT PERFORMANCE

- 1 Steel-reinforced uPVC profiles:**
Added strength allows for larger openings without bulky frames.
- 2 Dual and triple pane glazing options:**
Improves energy efficiency, sound reduction, and overall comfort.
- 3 Strong resistance to air, water, and weather:**
Designed to perform reliably in demanding Canadian climates.
- 4 Five-chamber profile system:**
Internal air chambers enhance thermal performance, rigidity, and strength.
- 5 Bogie wheels:**
Engineered to carry up to 880 lb panels while maintaining superior structural integrity over time.

OMEGA LIFT & SLIDE

Optimized performance for everyday living and standard residential openings

KEY ADVANTAGES

- **Opening Size:** Supports spans up to 21' wide × 8.5' high
- **Sash Depth:** 76 mm sash for balanced thermal and acoustic comfort
- **Performance Rating:** Up to PG35, delivering strong structural strength for most residential environments
- **Water Resistance:** Tested up to 730 Pa to help protect against wind-driven rain

BEST SUITED FOR

Single-family homes

Renovations and new builds

Projects prioritizing accessibility and everyday usability

Accessibility: Low-profile track for easier access with wheelchairs, strollers, and daily foot traffic

MEASUREMENTS

PRODUCT TYPE	MAX WIDTH	MAX HEIGHT
2 Panel Door	15'	8.5'
3 Panel Door	21'	8.5'
4 Panel Door	21'	8.5'

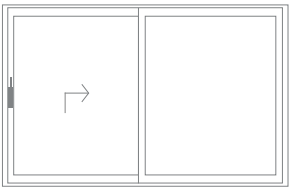

PERFORMANCE

PERFORMANCE	OMEGA LIFT & SLIDE
Operation	Lift & Slide
Max Opening Size	21' x 8.5'
Max Performance Rating	PG35
Max Water Resistance	730 Pa
Performance Grade*	Up to CW

*Performance rating depends on configuration and water resistance.
CW = Commercial Window

HANDLE OPTIONS

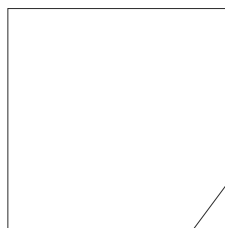

Contemporary handle designs in a selection of finishes with locking configurations to match both aesthetic and functional preferences.

Black

Titanium

White

Aluminum handle set with optional key lock. Exterior available with a handle or recessed pull.

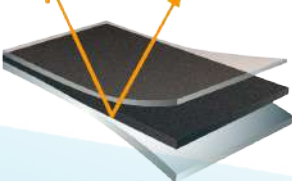

EXTERIOR & INTERIOR LAMINATE FINISHES

Exclusive and durable finishes engineered for long-term colour stability and weather resistance. Our laminates are 6x thicker than paint, UV resistant, and built to resist fading, chipping, and peeling over time.

CONTI® COOL COLORS PLUS

Cool Colors PLUS uses a white base layer to reflect heat, keeping even dark colours cooler. A UV-protected top layer helps prevent weather damage.

Durable acrylic layer, 100% UV block
Infrared heat reflective pigmented color
White base for extra heat reflectivity

CONTI® MATTEX

Mattex features a premium sand-matte finish that delivers the look of powder-coated aluminum. Cool Colors reflects heat and helps prevent fading.

CONTI® WOODEC

Woodec delivers a deeply embossed, very matte wood-look finish that gives a rich, natural appearance almost indistinguishable from real wood.
