

THERE'S A LINE BETWEEN A GOOD SHINGLE AND A GREAT SHINGLE.[®]

It's the nailing line on your shingles. The difference between a good shingle and a great shingle is having Patented SureNail[®] Technology, only from Owens Corning.

Excellent Adhesive Power
Helps keep the shingle layers laminated.

Outstanding Grip
The SureNail[®] strip enhances the already amazing grip of our proprietary Tru-Bond[™] sealant for exceptional wind resistance of a 130-MPH wind warranty.*

Breakthrough Design
Patented SureNail[®] Technology is the first and only reinforced nailing zone on the face of the shingle.

"No Guess" Wide Nailing Zone
This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see, strong, durable fastener zone.

Double the Common Bond
SureNail[®] features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.

Triple Layer Protection[®]
A unique "triple layer" of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against "nail pull" from the wind.

THE PROOF IS IN THE PERFORMANCE

Proven Performance is what truly sets Owens Corning[®] architectural shingles above the rest^{††}

TOTAL PROTECTION SIMPLIFIED[™]

It takes more than just shingles to protect a home. It takes an integrated system of components and layers designed to perform in three critical areas. The Owens Corning[®] Total Protection Roofing System[®] gives you the assurance that all of your Owens Corning[®] roofing components are working together to help increase the performance of your roof.

* See actual warranty for complete details, limitations and requirements.

‡ 40-Year Limited Warranty on commercial projects.

** Tru-Bond is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing[®] and Asphalt, LLC.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

+ The amount of Triple Layer Protection[®] may vary on shingle-to-shingle basis.

++ Applies to all areas that recognize Miami-Dade Notice of Acceptance (NOA).

†† Owens Corning testing against competing products with wide, single-layer nailing zones when following manufacturers' installation instructions and nailing in the middle of the allowable nailing zone.

International Code Council Evaluation Services Acceptance Criteria for Alternative Asphalt Shingles.

^ Excludes non-Owens Corning[®] roofing products such as flashing, fasteners, pipe boots and wood decking.

SureNail[®] Technology is not a guarantee of performance in all weather conditions.

Shingles are algae resistant to control the growth of algae and discoloration.

TruDefinition[®] DURATION[®]

Shingles with Patented SureNail[®] Technology

Driftwood[†]

DEEP DIMENSION OUTSTANDING PERFORMANCE

With TruDefinition® Duration® Shingles, you don't have to sacrifice beauty for durability. Multiple granule colors and shadowing work together to create rich color and depth, resulting in a truly unique and dramatic effect. Available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension, they ensure your home's roof looks as spectacular as it performs.

Beyond the impressive curb appeal, TruDefinition® Duration® Shingles feature the outstanding grip and exceptional wind performance of patented SureNail® Technology.

Duration® Shingles offer:

- The high-performance of SureNail® Technology
- A TruDefinition® Color Platform
- A Limited Lifetime Warranty*+ for as long as you own your home
- The protection of a 130-MPH wind warranty*
- StreakGuard™ Protection with a 10-year Algae Resistance Limited Warranty*

Don't let black streaks lower the value or curb appeal of your home.

Owens Corning blends specialized copper-lined granules, developed by 3M, a leading producer of roofing granules, into our colorful shingles. This helps resist blue-green algae growth.
