## Professional Summary

Full-Stack Developer skilled in React.js, Next.js, Node.js, and Python, with experience building scalable, responsive web apps. Strong in API integration, UI/UX design, and database systems like PostgreSQL and Prisma.

## EDUCATION

**Greenfield Public School**, Surat, Gujarat                    March 2018 – March 2020
*Higher Secondary – GSEB*

**Greenfield Public School**, Surat, Gujarat                    July 2021 – May 2025
*B.Tech in Computer Science and Engineering*

## EXPERIENCE

**AuroraSoft Technologies Private Limited**                    *May 2024 – July 2024*
*Full Stack Web Developer Internship*

***Tech Stack:*** React.js, Node.js, Express.js, Framer, Recurly APIs, Postman

- Built **user interfaces** with **Framer** and Chakra UI
- Integrated **REST API**s for subscription management workflows (billing, invoicing, coupons)
- Improved payment completion rates through secure gateway integration

## PROJECTS

**Faculty Recruitment Portal**
Guided by Professors

**Tech Stacks:** Next.js, React, TypeScript, Tailwind CSS, PostgreSQL, Prisma

- **Provide  Overview:** Designed a scalable recruitment system to manage large volumes of Applications
- **Reduced Processing Time:** via automation of form validation and PDF generation
- **Improved User Activation**: Boosted completed applications by 40% with user-friendly features.

**Multimodal AI Chat Application**
Self-Initiated Project

**Tech Stack:** Python, Streamlit, PyTorch, Whisper, ChromaDB.

- **Project Overview:** Developed a multimodal chat application supporting image, audio, and text Inputs
- **Features:** Integrated Whisper AI for audio transcription, LLaVA for image understanding, open-source tools for PDF querying

## ACCOMPLISHMENTS

- Earned "**Top Performe**r" badge in institute-level coding assessments
- Completed **600+ practice problems** on internal **DSA** platforms
- Finalist in the **National I**nter-College CodeSprint (**Top 12%**)

## SKILLS

**Languages**: C/C++, Python, JavaScript, SQL, HTML, CSS
**Frameworks:** React.js, Next.js, TypeScript, Prisma
**Databases:** PostgreSQL, MySQL, MongoD
**Tools:** Git, GitHub, Postma
**Coursework**: Data Structures & Algorithms, DBMS, Operating Systems,  Machine Learning, AI, Computer Networks

## ACTIVITIES

Volunteer in campus social service initiatives
Winner, Inter-College Badminton Tournament for First-Year Students
