Re: IBEW Monthly Political Newsletter

Dear Sisters and Brothers:

Attached is the latest installment of the monthly newsletter that has been initiated to keep members informed about the new presidential administration. Please read and circulate it to the general membership. The Biden administration may be only a few months old, but it is operating overtime to get the United States back on its feet.

Every day, President Biden recognizes the primacy of American workers, collective bargaining, and the labor movement. Whether he is expressing his support for a historic organizing campaign or appointing union members as key personnel in his administration, never before has a president been so public in their support of the values that the IBEW holds dear.

I encourage you to distribute it to your members and discuss the content at monthly meetings. Please feel free to include its material in your own letters and communications to rank-and-file members. This newsletter may also be found on the www.ibew.org/political/bbb website, along with more news updates and newsletter archives.

Thank you for your assistance in sharing this information, as it is critically important that IBEW members stay informed. If you have any questions or need anything else, please contact Government Affairs Department Director Danielle Eckert at (202) 728-6247 or by email to Danielle.Eckert@ibew.org.

With best wishes, I am

Fraternally yours,

Lonnie R. Stephenson
International President
