

HEDI BEN HAFSA

Game Programmer

Introduction

Passionate about the world of video games. I enjoy taking on new technical challenges. Curious and collaborative, I am constantly seeking to learn and work on dynamic projects that push the boundaries of my thinking. I am therefore eager to contribute to teams that share these passions.

Interests

Games (Video game - TCG)

Musculation and Nutrition

Webtoons

Professional experience

Dishwasher

Mogador Brasserie Café Mai - Août 2024

- Working in collaboration with the teams in the kitchen and dining room
- Ability to manage a fast rhythm during busy periods

Seller

Relay Aéroport Juill. - Sept. 2022 | Juin - Août 2023

- Accurate management of cash receipts and transactions
- Reception and daily interaction with customers in a dynamic environment

Multi-task Employee

Pizza Hot au feu de bois Juill. - Sept. 2021

- Welcoming and interacting with customers in a dynamic environment

Projects

ExtractionZ

Unity - C#

Third-year final project, a 3 vs 3 multiplayer game produced in hybrid ECS, where I focused on the multiplayer aspect, synchronising the main gameplay elements across the network.

The Fallen One

SFML - C++

Second-year final project, where I was able to create a boss, as well as the player and their various mechanics.
