170.315 (b)(10) EHI Export Documentation

Office Ally provides an export of electronic health information (EHI) for a single patient as well as for a patient population in the following computable formats:

1. CCDA:
   Office Ally EHR 24/7 supports bulk export of HL7 CCDA xml files which comply to [United States Core Data for Interoperability (USCDI), Version 1](#) requirements.

   The specifications for the CCDA can be obtained from the HL7 website: [C-CDA (HL7 CDA® R2 Implementation Guide: Consolidated CDA Templates for Clinical Notes - US Realm)](#)

2. Appointments:

   - This file offers a comprehensive view of appointment details, the data will be exported in CSV format

3. Claims:

   - This file offers a comprehensive view of claim details, the data will be exported in CSV format

4. Attachments:

   - Contains any scanned or uploaded documents in the patient's record, the files will be exported in the format in which they were uploaded
