Streamline Revenue Cycle Management

Service Center by Office Ally provides a cost-effective, easy-to-use Revenue Cycle Management solution to help healthcare organizations verify patient eligibility & benefits, submit claims and manage remittances all in one single application. With instant access via a web-based platform, Service Center enables healthcare organizations to take control over their revenue cycle process.

Streamline Your Workflow

1. Submit claims to any Payer

2. Verify Patient Eligibility and Benefits.

3. A Trusted Solution

All payer Clearinghouse

Service Center is your Claim Copilot,™ helping you with the claims management process. Service Center enables electronic submission of various claim types — professional, institutional, dental, encounters and workers' compensation — to more than 6,000 payers using direct data entry, file upload or SFTP transmission. Submitting claims electronically saves you valuable time and ensures faster delivery of your claims. Office Ally can also send paper claims if a payer requires it. With Service Center, you have flexibility, convenience and consistency at your fingertips.

Eligibility and Benefit Verification

Verify eligibility and benefits in real-time before each visit empowering your front-end staff to inform patients about co-pays, co-insurance, and deductibles upfront. Understanding these details beforehand can increase front-end patient payments, minimize back-end claim denials for ineligible members, and ensure smoother reimbursement processes for improved revenue cycle management.

Trusted solution

More than 80,000 healthcare organizations use Office Ally solutions to process more than 950 million healthcare transactions annually. With Office Ally, you can have confidence that the tools you use are built with reliability, security and efficiency in mind.
