

# Patient Payments

Create a financially healthy and patient-centered practice with Office Ally

## Patient Payments at a Glance

### 1. Simple Setup

With no hardware requirements, you can start taking payments today.

### 2. Cost-Effective

Competitive transaction rates and low overhead make it easy on your bottom line.

### 3. Integrated

Complete all your transactions within Service Center or Practice Mate.

\* Text-to-pay functionality is currently only available in Service Center.

† The ability to store a patient's card on file is only available in Practice Mate.

§ Patient Payments is set up to use the [Stripe S700](#) and [Stripe WisePOS E](#) processors and can be purchased directly from [Stripe](#).

## Patient Payments, Powered by Stripe

Streamline your patient payment processing with Patient Payments, powered by Stripe. This user-friendly solution enhances your practice's financial efficiency, improves cash flow and heightens patient satisfaction.

Simplify and enhance the payment experience for both your practice and patients by enjoying a cost-effective, hassle-free payment processing solution that provides your patients with convenient and modern payment options.

## Boost Patient Satisfaction

Give your patients the flexibility to pay the way they want by offering them multiple secure payment options, such as text-to-pay\* and storing cards on file† for future payments, helping ensure a positive and seamless payment experience.

## Optimize Your Cash Flow

Optimize your financial outcomes by using Patient Payments to process payments at the time of service. Collecting at the time of service helps streamline your operations, settle bills promptly and prevent revenue loss. With minimal overhead and competitive transaction rates, Patient Payments helps you keep costs low and retain more income for your practice.

## Improve Office Efficiencies

Available in Service Center and Practice Mate, Patient Payments enhances your office's efficiencies and saves valuable staff time. Featuring a straightforward and easy-to-use interface, Patient Payments requires no prior technological expertise. Even better, Patient Payments can be set up in minutes with no hardware needed§, allowing you to start taking payments today.
