Reminder Mate From Office Ally

Reminder Mate is a cost-effective solution that helps your practice thrive with an automated appointment reminder workflow. Reduce no-shows and enhance patient satisfaction by proactively reminding patients about upcoming appointments using their preferred communication method.

Automated, Customizable Reminders

Reminder Mate enhances your team's efficiency and makes it more convenient for patients to keep track of their upcoming appointments. Featuring an easy-to-use interface, and built with simplicity and flexibility in mind, Reminder Mate allows you to easily tailor messages and delivery times to fit the specific needs of your office, helping you reduce no-shows and create a seamless experience for everyone involved.

Patient-Centric Communication

Every patient is unique, and their communication style is no exception. Reminder Mate offers the flexibility to match your patients' communication preferences with options to send reminder messages via phone calls, emails or texts, and in 16 different languages. This can improve your office's overall communication and help boost patient satisfaction and trust.

Improved Staff Production

Lighten the burden of working with multiple systems throughout the day. Reminder Mate integrates seamlessly with the Appointment Calendar inside Practice Mate and EHR 24/7, helping you simplify workflows and improve staff efficiency.

Office Ally wants to be your healthcare ally every step of the way. Reminder Mate helps your practice thrive with streamlined patient communication that helps reduce no-shows through automated reminders about upcoming appointments.
