

# Occupational Certificate: Safety, Health & Quality Practitioner (Health & Safety Practitioner)

NQF Level 05

256 Credits

SAQA ID: 99714

## ACCREDITED ASSESSMENT CENTRE

9435 Ikinixa Sreet,  
Pimville Zone 6,  
Soweto

### Integrated Assessment Focus Area 1

Facilitate and support actions to eliminate or control hazards in order to minimise risks in a designated work area.

### Associated Assessment Criteria 1

1. Analyze organizational dynamics & OHS stats to identify gaps against industry standards.
2. Key focus areas:
  - Emergency preparedness
  - Training & communication
  - Incident investigations
  - OHS roles & committees
3. Develop practical short/medium/long-term solutions that:
  - Address identified gaps
  - Follow global best practices
4. Goal: Effective, sustainable safety improvements.

### Integrated Assessment Focus Area 3

Monitor and continually improve the effectiveness of operational Occupational Health and Safety systems.

### Integrated Assessment Focus Area 2

Participate in the planning and implementation of operational occupational health and safety management systems.

### Associated Assessment Criteria 2

1. Risk Analysis: Assess organizational scenarios to develop industry-compliant risk profiles & legal registers.
2. Gap Correction: Create targeted safety plans to fix OHS system shortcomings.
3. Plan Optimization: Review current plans for practical, cost-effective, legally compliant improvements.
4. Communication Framework: Establish global-standard reporting protocols with barrier mitigation.
5. Outcome: Compliant, efficient OHS management with sustainable safety results.

### Associated Assessment Criteria 3

1. Analyze audits/monitoring/investigations.
2. Recommend OHS improvements with real-world examples.
3. Identify accident trends accurately.
4. Propose practical prevention measures.
5. Ensure solutions match industry best practices.

## ACCREDITED ASSESSMENT CENTRE

4264 Magaqane Sreet,  
Pimville Zone 4,  
Soweto

### Integrated Assessment Focus Area 1

Provide holistic care and support to patients and household members

### Associated Assessment Criteria 1

1. Comprehensive assessment ensures accurate identification of patient, family, and household needs using appropriate tools.
2. Needs are effectively translated into a structured patient care plan.
3. Physical care provision (palliative, rehabilitation, therapeutic, elderly care, child care) aligns with WHO and departmental guidelines.
4. Spiritual & cultural care meets constitutional requirements and is contextually appropriate.
5. Emotional & social care follows departmental standards and suits the specific context.
6. Universal healthcare precautions are correctly applied per global guidelines, considering water conservation.

### Integrated Assessment Focus Area 3

Operate effectively within a multi-disciplinary team context

### Integrated Assessment Focus Area 2

Communicate effectively with patients and household members to provide care and support.

### Associated Assessment Criteria 2

1. Context-appropriate communication ensures empathy and compassion in home-based care.
2. Empathetic listening must be applied effectively, considering patient needs and context.
3. Barriers to communication are identified, with practical mitigation strategies aligned to best practices.
4. Health information requirements are clearly defined, with structured delivery methods for patients and households following leading practices and departmental guidelines.

### Associated Assessment Criteria 3

#### Communication in Home-Based Care

1. Context-appropriate communication ensures empathy and compassion.
2. Empathetic listening aids problem-solving, considering patient needs and circumstances.
3. Communication barriers must be identified and mitigated using best practices.
4. Health information delivery should be structured and aligned with leading practices and guidelines.
