COURSE OVERVIEW

An Occupational Health and Safety Practitioners serve as a facilitator and advisor to employees and management regarding safety and health aspects in the workplace including the monitoring and inspecting of the workplace and the recording and investigation of incidents and accidents. They also implement and maintain Occupational Health and Safety systems in order to ensure a safe and healthy work environment.

As an integral part of the planning and implementation of operational occupational health and safety management systems, you will play a vital role in safeguarding the welfare of all individuals.

COURSE OUTCOMES

- Facilitate and support actions to eliminate or control hazards in order to minimise risks in a designated work area.
- Participate in the planning and implementation of operational Occupational Health and Safety Management Systems.
- Monitor and continually improve the effectiveness of operational Occupational Health and Safety systems.
- Inspect workplaces and environments to identify the occupational health and safety hazards and determine the risks associated with the work.
- Advocate for the needs and concerns of employees regarding Occupational Health and Safety matters, ensuring their voices are heard.

Accreditation status:

- NQF Level 5 – Accredited by the Quality Council for Trades and Occupations (QCTO)
- SAQA ID: 99714
- 263 Credits
