COURSE OVERVIEW

A Community Development Practitioner acts as a change agent to add value to community development practice by exploring and coordinating networks and partnerships. Conducts community-based research to inform interventions, aligned to relevant legal and regulatory frameworks. Plans, designs and manages community interventions through the application of appropriate leadership and management styles; all of which are done to promote ethical and professional community development practice.

COURSE OUTCOMES

On completion of the program, you will be able to:

- Compile and present community profile reports.
- Manage community development information and data (Gathering, analysis and storing).
- Establish, identify and coordinate community development structures.
- Assess the performance of and provide support to community development structures.
- Monitor the progress and achievements of community development initiatives.
- Mobilise and manage volunteers and support staff.

Accreditation status:
